Evening, Are you free for a zoom?

I'm not sure what time it is where you are. If not today, can we schedule something soon?

9:48 PM

Oh sorry I had poor internet up in the country today!

9:52 PM

No worries. \

I'll be free tomorrow.

Any time you like

9:52 PM

Great. How about 9.40am UK time...

Send me your email and I'll send a zoom link.

9:53 PM

Perfect :)

9:53 PM

thanks so much for connecting, it's going to take a global constituency of women to defeat this madness.

### Suggestions

Speaking events to be held as close to each State's Parliament House steps as possible

This will require permission from the relevant Local Council in each State (apart from Federal Parliament, which likely has separate rules.

Ideally, you'll have a meeting with MPs inside each State Parliament House prior to your event. then see how

Ideally, you'll have a meeting with MPs inside each State Parliament House prior to your event, then see how many will walk down the steps with you to the event. Claire Chandler and I, via our contacts can help you find MPs. Honestly, that one media shot will put you at the top of every media news program that night. Also ideally, you'll also get each of these State MPs to present a submission to Parliament in the same week. This will also build media interest. For each physical event, you'll need Public Liability Insurance, security guards, sound systems and very likely a truck stage too- unless you want to just stand on a box of some sort- that's your 'brand' almost, so perfectly fine if you do that instead :D (I always

ambulance to be present just in case but up to you).  
FUNDRAISING FOR YOU: I've set up a PO Box, and my two eldest children are excited to help. We've researched the cost of Prepaid Parcel Post for items under 5kg, about the size of an A4 piece of paper, which guarantee delivery Australia wide in two or more business days. The cost is \$94.55 per 10 pack. So that's basically a flat \$10 delivery fee from within Australia. That's reasonable and people will pay it, especially if- as part of our special fundraiser, they get a couple of stickers too. And we all want PINS!!! Pins are less conspicuous so please send us pins to sell!! I just need to work out how to sell the items- would it be via your page?

Ok so we are spreading the word amongst likely supportive MPs from across Australia. We're aiming to have one in each State to host you in parliament x petition almost ready too

2:23 PM

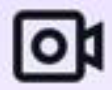

How is this for the petitions:  
"We call upon the government to  
1. Affirm that Women's rights are fundamental Human Rights, based wholly upon the category of biological sex

"We call upon the government to

1.Affirm that Women's rights are fundamental Human Rights, based wholly upon the category of biological sex

AND

2.Reinstate the primacy of biological sex over 'gender identity', in Laws (both State and Federal)."

That's draft one.

The only thing I kind of urgently need from you is the ok for the petition, it won't use the name Standing For Women, but I want you to feel comfortable being associate with it. It doesn't cover every issue but it's something everyone can sign

In terms of fundraising I think the cheapest easiest fastest way is to sell your pins. Can you send me 2000 pins & set up an AU\$ link for us to share to fundraise for your Australian tour? My daughter is happy to distribute them for you for free if you send her order details & pay the postage.
