Ok so your Melbourne organisers seem to think the library will be a better venue. I disagree because in my opinion the view is obscured by statues so less great media shots. & it's very difficult to see hostiles approaching... they seem to want the crowds. But the city is always dead anyway. I think Parliamentary steps are a better visual & safer but I'll support whatever you all decide x

Both morally and selfishly the time to stick their heads above the parapet is now. If they want to create a legacy they must not wait. We must also

Permits don't exist in Melbourne it's a matter of simply booking public space. There is no way Council's are liable for insurance for events they don't personally, officially run themselves.

Booking space is #1 priority. Insurance doesn't need to cover defamation because you can just say you're not responsible for anything that isn't out of your own mouth or on your officially endorsed signs.

I got quotes for insurance & sound for Melbourne- where do I email them again?

And I'm almost finished the table of Legal info for each State
