Thanks. Should I reply and let her know she will get a copy once they are approved by the party room?

Renee, I am not releasing any proposed minutes until they are approved by the party room. Until that time, any documentary record of the meeting does not constitute the minutes. No draft notes should be provided. JP

Moir has emailed me again requesting the minutes. She said she has gotten legal advice and she is entitled to the suspension conditions and the minutes even if they are in draft form. This is at least the third email requesting them - have you replied to any?
