

Keith Gregory

8h · 🌐

Senator Jacinta Price is currently appearing before a federal court over claims she has defamed the CLC CEO.

As a politician she is open to scrutiny like any other politician. She must answer for her actions.

On 11 September 2024, two AFP officers attended my home.

The exchange went as follows:

AFP: "Are you Keith Gregory?"

KG: "Yes."

After brief small talk, they said:

AFP: "We have to let you know this conversation is being recorded on our body cameras. Have you been sending email requests to Senator Price regarding child sexual abuse?"

KG: "Yes, we have been trying to secure a meeting with her."

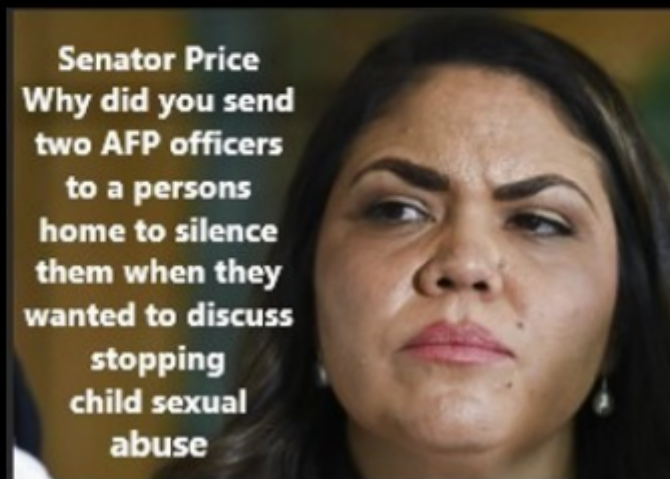

AFP: "We are here to advise you that Senator Price requests that you no longer send emails to her."

I was shocked. The Senator had never responded to my emails or asked me to stop contacting her. She could easily have blocked my messages. Instead, the Australian Federal Police were sent to deliver the warning in person not to send emails to the Senator.

To me it resonated how the Nazi's would use the Gestapo in WWII sending them to people's homes to silence them. This was an abuse of power and noting more than an attempt to intimidate someone into silencing them.

This is my organisation. I am a survivor of child sexual abuse. <https://www.goefoundation.com.au/>

**Do you think it is OK for
politicians to use the AFP
to silence you?**

**The Australian people have a right
to know.**
