We will also be in touch with you to organise a time to provide training on the new platform. Please also find attached a User Guide for your reference.

SIGBox (SafeShare 3.5) – End of Life

Please keep in mind that the existing version of Sigbox (SafeShare 3.5) will be end of life on 30 November and will be sun-setted as of that date. If you would like to keep files which are currently stored in v1 please re-upload those to v2, otherwise the files will be discarded. Please find attached a guide on how to move anything from the current Sigbox Service. There are two documents one is a simple migration or if you have a more complex file structure please refer to the Complex Migration document.

If you have any questions in the meantime please do not hesitate to contact me.

Kind regards,

Jo
