I, Lucas Welsh of Level 50, 360 Elizabeth Street, Melbourne VIC 3000, General Counsel, affirm:

1. I am the Chief Financial Officer (**CFO**) and Company Secretary of the applicant, Sunstone Metals Ltd ACN 123 184 412 (**Sunstone** or the **Company**), having been appointed to that position on July 1, 2024. I am authorised to make this affidavit on Sunstone's behalf in support of its application pursuant to section 1322 of the *Corporations Act 2001* (Cth) (**Corporations Act**). Exhibited and marked "**LW-1**" is a true copy of my curriculum vitae.
2. I make this affidavit based on my own knowledge and from a review I have conducted of the relevant books and records of Sunstone, except where I state otherwise. Where I depose to matters on the basis of information and belief, I believe such matters to be true and correct.

## Background

3. Sunstone is an ASX-listed mineral exploration company with two gold and copper assets in Ecuador: being the Bramaderos Gold-Copper Project and the El Palmar Copper Gold Project.
4. Sunstone has its registered head office at Level 31, 120 Collins St, Melbourne VIC 3000. It has five (5) employees in Australia (three in Victoria and two in Queensland), and a Board of four (4) directors (three non-executive and the Managing Director & Chief Executive Officer). The majority of Sunstone's workforce is based in Ecuador. That workforce executes the management and maintenance of the projects in Ecuador, and includes a management team which is responsible for Ecuadorian regulatory compliance, environmental compliance, community relations, human resources,

tenement/concession management and exploration activities. Exhibited and marked "LW-2" is a true copy of a current and historical company search of Sunstone obtained by Sunstone's current lawyers, Messrs Thomson Geer as at 13 May 2025 from the records maintained by ASIC. As can be seen:

- (a) Sunstone was incorporated on 20 December 2006;
- (b) Sunstone is bound by a constitution;
- (c) Sunstone has 5,982,775,046 shares on issue with a paid-up capital of \$148,561,924.52;
- (d) The previous company secretary of the Sunstone was Mr Gavin Leicht, who held that role from 28 April 2015 and 30 June 2024 (following which I took over the following day). Mr Leicht remained at Sunstone until 31 July 2024 (**Handover Period**) to assist with handing over his responsibilities as Sunstone's company secretary to me upon my formal appointment to that role;
- (e) Sunstone is a listed public company on the Australian Securities Exchange (**ASX**); and
- (f) There are four current directors of the Company, namely:

Name of director	Appointment date
Mr Malcolm Norris	1 April 2014
Mr Stephen Stroud	6 September 2017
Mr Patrick Duffy	8 November 2023
Mr Neal O'Connor	16 April 2024

5. Shortly prior to its listing on the ASX, Sunstone undertook an initial public offering (**IPO**) whereby ordinary shares in Sunstone were offered to investors under Chapter 6D of the Corporations Act. Following the success of the IPO, Sunstone was admitted to the Official List of the ASX on Thursday, 22 March 2007. At the time, Sunstone traded under the name Avalon Minerals Limited. Exhibited and marked "LW-3" is a true copy of a market announcement released by the ASX on that day. The market announcement provided, in part as follows:

Newly launched Australian base metals company, Avalon Minerals Limited (ASX: AVI), is set to make its debut on the Australian Stock Exchange at 10.30am (WGST) today (Thursday, 22 March) following a successful \$3.5 million Initial Public Offering (IPO) underpinning a major new exploration program in one of Western Australia's most productive zinc provinces. Avalon is headed up by well-known Australian mining executive, Mr David McSweeney.

The IPO – comprising 17.5 million shares at 20 cents each – closed less than a month following the launch of the Prospectus on 16 February after attracting strong Australian and international investor support, including a cornerstone investment by Hong Kong-based metals trader Sinom. Oversubscriptions were not accepted for the offer.

6. In the time available prior to making this Court application, I have closely considered Sunstone's lodgements with the ASX since 1 July 2018. Since that time, Sunstone has remained listed on the ASX and has not, at any time, been subject to suspension (other than the current suspension for the purposes of the matters traversed in this affidavit).
7. Upon first discovering the recent cleansing notice matter, I undertook a comprehensive review of Sunstone's records to verify compliance with its disclosure, financial, auditing and reporting obligations, and to identify if there were any other deficits to be redressed. My review of Sunstone's records demonstrates that it is currently in compliance with all of its financial, auditing and reporting obligations under the Corporations Act. The most recent audited accounts and Annual Report of Sunstone were lodged on 13 September 2024 and its Annual General Meeting held on 24 October 2024. The half year financial accounts for the six months to 31 December 2024 were lodged on 13 March 2024. The financial report for the year ending 30 June 2025 is due to be filed by the end of September 2025, with the AGM to be held by the end of November 2025.

#### **The 10 distinct types of share issues undertaken by Sunstone**

8. As is the case (in my experience) with many resources companies listed on the ASX, the capital expenditure required to investigate and develop the potential of interests in mining and other tenements is significant. Since the IPO in 2007, Sunstone has raised capital on many occasions via a number of methods, including standard capital raisings, share purchase plans and via the injection of equity by directors (in exchange for shares) with express shareholder approval.
9. My review of Sunstone's records and those maintained on Sunstone's ASX portal page over the past seven (7) years demonstrates that since 1 July 2018 (being the commencement of the 2018/19 financial year), Sunstone has issued shares on 25

occasions under the umbrella of 10 distinct types of share issues. Those types of share issues are as follows:

- (a) *First*, share issues pursuant to the terms of Share Purchase Plans (**SPP Issues**), whereby shares were offered to existing shareholders of Sunstone pursuant to *ASIC Corporations (Share and Interest Purchase Plans) Instrument 2019/547 (SPP ASIC Instrument)*. ASIC gives relief under the SPP ASIC Instrument to allow ASX listed companies to offer shares to existing holders under a share purchase plan without a prospectus so long as the offer complies with the provisions of the SPP ASIC Instrument. These share issues were undertaken principally with a view to raise capital, on three occasions – an SPP offer dated 30 April 2020, an SPP offer dated 21 April 2022 (**2022 SPP Issue**) and an SPP offer dated 16 September 2024;
- (b) *Secondly*, placements of shares to directors pursuant to section 708(12) of the Corporations Act. Like the SPP Issues, these were undertaken principally with a view to raise capital - and were undertaken as part of larger placements to sophisticated investors, with shares only being issued to directors after shareholder approval had been granted, on three occasions being:
  - (i) On 13 February 2022;
  - (ii) On 9 July 2024; and
  - (iii) On 31 October 2024,**(Director Placement Issues)**;
- (c) *Thirdly*, by way of the standard issue and placement of shares to new and existing institutional, professional and sophisticated investors on 13 November 2018, 28 April 2020, 22 April 2022, 29 April 2022, 23 May 2023, 18 December 2023, 10 May 2024, 15 May 2024, 16 September 2024 and 2 April 2025 (**April 2025 Placement**);
- (d) *Fourthly*, by way of the exercise of unlisted options issued under a prospectus dated 16 September 2024 on 25 November 2024, 28 January 2025, 4 April 2025, 7 April 2025, 14 April 2025, 22 April 2025, 5 May 2025 and 12 May 2025;
- (e) *Fifthly*, by way of share issue to existing shareholders under a non-renounceable entitlement offer on 31 May 2024;

  
.....  
Lucas Welsh

- (f) *Sixthly*, by way of the exercise of listed options under a prospectus dated 24 August 2016 on 3 September 2019;
- (g) *Seventhly*, by way of the exercise of unlisted options on 3 September 2019;
- (h) *Eighthly*, by way of an underwritten shortfall of listed options on 10 September and 12 September 2019;
- (i) *Ninthly*, shares issued as consideration for the sale/transfer to Sunstone by the allottees of a 20% interest in Scandian Metals Pty Ltd which held Sunstone's then lithium interests in Finland (which were later sold) on 5 July 2018; and
- (j) *Tenthly*, by way of an exercise of options issued under the Company's employee incentive scheme on 28 September 2018, 8 April 2019, 18 July 2019, 10 September 2019, 1 November 2021, 10 November 2021, 1 December 2021, 13 July 2022, 4 November 2022 and 18 November 2022.

#### **Discovery of failures to comply with disclosure obligations under the Corporations Act**

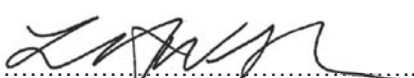

10. Following the recent April 2025 Placement, on or about Thursday, 8 May, I realised that I had not caused a Cleansing Notice in accordance with section 708A(6) of the Corporations Act (or otherwise a cleansing prospectus in accordance with section 708A(11) of the Corporations Act) to be lodged with the ASX. I then immediately notified Sunstone's external lawyers, Messrs Thomson Geer, and sought their advice as to the legal effect of that failure and Sunstone's associated legal and regulatory obligations.
11. On Monday, 12 May 2025, Mr Eugene Fung, a partner at Thomson Geer, advised me that:
  - (a) Sunstone should place a trading halt on its shares as soon as possible;
  - (b) it would be necessary to apply to Court to seek relief, including orders validating any on-sale of shares issued under the April 2025 Placement and relieving shareholders who sold such shares from civil liability for failure to provide disclosure; and
  - (c) I should also review share issues by Sunstone over the previous seven (7) years to determine whether there might be other share issues which occurred in breach of Sunstone's disclosure obligations under the Corporations Act and the ASX Listing Rules.

12. Given Mr Fung's advice, I caused Thomson Geer to prepare a trading halt request letter to the ASX to be released to the market. I lodged the request with the ASX on Tuesday, 13 May 2025. Exhibited and marked "**LW-4**" is a true copy of the Market Announcement of the Trading Halt which was published on the ASX's website together with Sunstone's trading halt request.
13. As the trading halt would lapse "at the commencement of normal trading on Thursday, 15 May 2025", on Wednesday, 14 May 2025 I caused Thomson Geer to prepare, and I lodged, a request with the ASX requesting that Sunstone be placed into voluntary suspension. Exhibited and marked "**LW-5**" is a true copy of the ASX's announcement confirming the voluntary suspension of trading in Sunstone's shares, which was published on the ASX's website together with Sunstone's request for voluntary suspension.
14. As noted above, I have undertaken an investigative review and survey of share issues by Sunstone since 1 July 2018, with a view to determining whether any other shares issues undertaken during that time also took place without a cleansing notice or other disclosure document.
15. The content in the table below is a brief summary of the compliance observations I have made as a result of my survey of Sunstone's records and the 24 shares issues which have been undertaken by Sunstone since 1 July 2018. (I note that the last share issue identified below in fact involved 11 instalments between 2018 and 2022.)

16. In the paragraphs below, based on my investigative review of Sunstone's books and records, I seek to explain the circumstances in which Sunstone did not lodge Cleansing Notices or Prospectuses, including those which arose prior to my appointment as CFO and Company Secretary on 1 July 2024.

(1) *Issue 9 – Placement Issue – 22 April 2022*

17. As identified in the table above, a Cleansing Notice was issued in relation to this Placement issue, but the Cleansing Notice did not state that Sunstone had complied with section 674A of the Corporations Act (that is, that Sunstone was otherwise compliant with its continuous disclosure obligations). This is required for a Cleansing Notice to comply with the requirements of section 708A(6)(d)(ii) of the Corporations Act. The requirement to make this statement was introduced by amendments to the Corporations Act under *Treasury Laws Amendment (2021 Measures No. 1) Act 2021* on 14 August 2021. On the basis of my review of the Company's records, it appears that this change was inadvertently overlooked, for the reasons that:

- (a) I could not find any document or email to suggest that the omission was deliberate;
- (b) I could not find any contemporaneous document or email in which the amendments were discussed, including when carrying out a key word search for the words "cleansing" and "674" of emails sent or received by Sunstone's former

company secretary, Mr Leicht, at or around the time the amendments were implemented in August 2021; and

- (c) I can see that subsequent Cleansing Notices complied with this requirement after 22 April 2022.

(2) *Issue 10 – Placement Issue – 29 April 2022*

18. As identified in the table above, a Cleansing Notice was issued in relation to this Placement Issue – which was in a sense part of Issue 9 – but this occurred a day before (rather than after) these additional shares were issued. This minor oversight was due to the fact that one shareholder (who sought to acquire 3,000,000 shares as part of the Issue 9 Placement) was late in depositing funds to Sunstone's account, resulting in a delay of five (5) days between that issue and the earlier issue of 295,507,463 shares. Nevertheless, the Cleansing Notice relating to both Issues 9 and 10 was lodged a day earlier on 28 April 2022. Exhibited and marked "LW-6" is a true copy of that Cleansing Notice, which refers to the issue of 298,507,463 shares (being the sum of Issues 9 and 10).

(3) *Issue 11 – April SPP Issue – 13 May 2022*

19. As noted in the table above, a Cleansing Notice was not issued. I have reviewed Sunstone's books and records and could not find:
- (a) any document or email to suggest that the omission was deliberate;
- (b) otherwise, any contemporaneous document or email sent or received by Mr Leicht at the time of Issue 11 which discussed or referred to the issue of a cleansing notice(s) in respect of this issue of shares under the SPP.
20. On 1 October 2019, ASIC had issued the SPP ASIC Instrument in relation to shares issued under share purchase plans. I note that condition 7(f) provides that a cleansing notice for an SPP offer is not required if the company has '*not more than 30 days before the offer, given a notice to ASX that complies with subsection 708A(6) or 1012DA(6) of the Act in relation to an issue of shares or interests in the class made otherwise than under a purchase plan*'. The offer for this SPP issue had been made on 21 April 2022. There was no Cleansing Notice issued in the 30 days before this (noting that the Cleansing Notice referred to above was issued on 28 April 2022, seven days after the offer for this SPP issue).

21. On the basis of my review of Sunstone's records, it appears that Mr Leicht wrongly concluded a Cleansing Notice was not required for this SPP issue of shares on 13 May 2022 because he was relying on Cleansing Notice issued in relation to Issues 9 and 10 in circumstances where:
- (a) he did recently issue a Cleansing Notice in relation to Issues 9 and 10 on 28 April 2022 (albeit incorrectly);
  - (b) this SPP Issue occurred only 2 weeks after Issues 9 and 10; and
  - (c) the SPP was launched following a placement (being the other requirement for disclosure relief under the SPP ASIC Instrument).
- (4) *Issue 14 – Placement issue; director allocation – 13 February 2024*
22. This issue appears – based on Sunstone's records – to be the result of Mr Leicht's misunderstanding of the relevant disclosure requirements, as the same approach was taken for each of the director allocation share placements. That is – a cleansing notice was issued for the primary placement of shares, but not for the subsequent associated issue of shares to directors as part of that placement.
23. Issue 14 related to the proposed issue of shares to directors. It was part of the Placement Issue 13 on 18 December 2023 but could not be issued until shareholder approval was obtained under Chapter 10 of the ASX Listing Rules (which was obtained on 6 February 2024 as discussed below).
24. A compliant Cleansing Notice was issued in respect of Issue 13. Exhibited and marked "LW-7" is a true copy of that Cleansing Notice, which refers to the issue of 405,750,000 shares
25. Additionally, the shares issued to directors pursuant to Issue 14 were approved by shareholders under Chapter 10 of the ASX Listing Rules on Tuesday, 6 February 2024. Exhibited and marked "LW-8" is a true copy of the ASX Announcement confirming such shareholder approval – which was issued to the ASX in accordance with the reporting requirements of Sunstone pursuant to section 251AA of the Corporations Act. Sunstone's records demonstrate that the shares were then issued to those directors referred to in the ASX Announcement on 13 February 2024, seven (7) days after their issue was approved by shareholders.

26. As can be seen from this ASX Announcement, the directors to whom the shares were issued are Messrs Norris, Ascough, Stroud and Duffy.

*My appointment on 1 July 2024*

27. I pause in my explanation of the results of my investigative review as to the circumstances of each affected share issue to note that as mentioned above, I took over company secretariat responsibilities from Mr Leicht on 1 July 2024.
28. My professional experience, including in the mining industry and ASX-listed companies, is set out in my *curriculum vitae* noted above. Most recently, for 2 years prior to my role at Sunstone, I was the CFO at St Barbara Limited (**St Barbara**), an Australian based, ASX-listed company with gold mining operations in Canada and Papua New Guinea. Prior to assuming the role of CFO at St Barbara, I also held the roles of Head of Transformation, General Manager Finance & Procurement and Manager Finance at St Barbara.
29. My current dual role at Sunstone includes ensuring that Sunstone complies with its financial compliance and disclosure obligations. As CFO at St Barbara, I had been responsible for St Barbara's compliance with its financial reporting obligations, including: annual and half-year financial reporting and ASX quarterly reporting. Other compliance obligations related to management of debt covenants and other third party reporting requirements under contractual agreements.
30. St Barbara did, however, appoint another individual to oversee St Barbara's compliance with its company secretarial obligations under the Corporations Act. Such responsibilities were not within the scope of my position of CFO except to the extent it related to the reporting or compliance obligations I set out above.
31. It was for this reason that in the months prior to joining Sunstone as its Company Secretary and CFO on 1 July 2024, I enrolled in and completed the following corporate governance courses:
- (a) The course entitled "Company Directors Course" provided by the Australian Institute of Directors (**AICD**). Exhibited hereto and marked "**LW-9**" is a true copy of a bundle of documents I received in respect of my admission as a graduate member of the AICD following my successful completion of that course on 9 January 2024; and

- (b) The course entitled "Accidental Company Secretarial Course" provided by the Governance Institute of Australia. Exhibited hereto and marked "**LW-10**" is a true copy of a bundle of documents, including a screenshot of my grade for the course (being 95%) and a tax invoice dated 29 May 2024 for the cost of the course.
32. This was to ensure that I had some sort of base level of understanding of compliance with company secretarial matters set out under the Corporations Act (to the extent that I did not know of them already).
- (5)-(6) Issues 18 and 21 – Placement issues; director allocation – 9 July and 31 October 2024*
33. The non-compliance in relation to Issues 18 and 21 is effectively identical to Issue 14.
34. These Issues took place after I had formally commenced at Sunstone as its company secretary and CFO on 1 July 2024. However, as I depose to above, Mr Leicht remained at Sunstone for a short period thereafter up to late July 2024. Accordingly, while Issue 21 occurred following Mr Leicht's actual departure from Sunstone, Issue 18 occurred relatively shortly after my formal appointment while Mr Leicht was assisting with handing over the role.
35. I did not issue a Cleansing Notice for the issue of shares to directors in respect of this Placement because I mistakenly misunderstood the technical requirements and believed that a Cleansing Notice was not required to be issued in such circumstances where:
- (a) a Cleansing Notice was issued for the overall Placement (at the time of the issue of the first tranche of shares under the Placement);
  - (b) the issue of shares to the directors were approved by shareholders at a General Meeting (as I discuss at paragraphs 38 and 41 below);
  - (c) a "senior manager" exemption was available under section 708(12) of the Corporations Act (and applied in the circumstances);
  - (d) the directors were generally subject to trading restrictions under Sunstone's Securities Trading Policy; and
  - (e) to the best of my recollection, Mr Leicht assisted me with considering technical compliance issues such as Issue 18 during the Handover Period (and I adopted a similar position thereafter at the time of Issue 21).

36. Issue 18 related to the proposed issue of shares to directors as part of the Placement Issues 15 and 16, which could not be issued until shareholder approval was obtained under Chapter 10 of the ASX Listing Rules.
37. A compliant Cleansing Notice was issued in respect of Issues 15 and 16. Exhibited and marked "**LW-11**" is a true copy of that Cleansing Notice, which refers to the issue of 170,181,818 shares.
38. The shares issued to directors pursuant to Issue 18 were approved by shareholders under Chapter 10 of the ASX Listing Rules on Tuesday, 2 July 2024. Exhibited and marked "**LW-12**" is a true copy of the ASX Announcement confirming such shareholder approval – which was issued to the ASX in accordance with the reporting requirements of Sunstone pursuant to section 251AA of the Corporations Act. Sunstone's records demonstrate that the shares were then issued to those directors referred to in the ASX Announcement on 9 July 2024, seven (7) days after their issue was approved by shareholders.
39. As can be seen from this ASX Announcement, the directors to whom the shares were issued are Messrs, Ascough, Stroud, Duffy and O'Connor.
40. Issue 21 related to the issue of shares to directors as part of the Placement Issue 19 which could not be issued until shareholder approval was obtained under Chapter 10 of the ASX Listing Rules. A compliant Cleansing Notice was issued in respect of Issue 19. Exhibited and marked "**LW-13**" is a true copy of that Cleansing Notice, which refers to the issue of 474,000,000 shares.
41. Additionally, the shares issued to directors pursuant to Issue 21 were approved by shareholders under Chapter 10 of the ASX Listing Rules on Thursday, 24 October 2024. Exhibited and marked "**LW-14**" is a true copy of the ASX Announcement confirming such shareholder approval – which was issued to the ASX in accordance with the reporting requirements of Sunstone pursuant to section 251AA of the Corporations Act. Sunstone's records demonstrate that the shares were only then issued to those directors referred to in the ASX Announcement on 31 October 2024, seven (7) days after their issue was approved by shareholders.
42. As can be seen from this ASX Announcement, the directors to whom the shares were issued are Messrs Norris, Stroud, O'Connor and Duffy. Although Mr Ascough was, by then, no longer a director, he received shares in Sunstone as a "Related Entity".

(7) *Issue 22 – Placement Issue – 2 April 2025*

43. Issue 22 only came to my attention very recently, and relates to a share placement which took place on 2 April 2025.
44. That share issue arose following the successful completion of a share placement whereby Sunstone raised \$4,000,000 which is to be used for working capital purposes. Exhibited and marked "**LW-15**" is a true copy of the ASX Announcement dated 27 March 2025 concerning this successful capital raising, whereby 800,000,000 further shares were issued in Sunstone in compliance with its capacity requirements.
45. An application for the quotation of those shares was also issued to the ASX on 2 April 2025. Exhibited and marked "**LW-16**" is a true copy of the Appendix 2A - Application for quotation of securities.
46. Despite the fact that I was generally aware of the requirements for a Cleansing Notice to be issued for a share issue of this nature, I unfortunately inadvertently overlooked the need to do so in the circumstances. That April/May and the period leading up to it was an extraordinarily busy time for Sunstone and certainly for my workload. For instance, in addition to the matters relevant to Issue 22, I was working on and issued to the ASX, six (6) further applications for quotations of securities (on 2 April, 4 April, 7 April, 14 April, 22 April, 5 May and 12 May 2025), a response to an ASX Price Query on 3 April 2025, a quarterly report (on 30 April 2025) and other information in relation to Sunstone's operations including project updates. In addition to those matters, I also had to attend to other responsibilities associated with my role as CFO at Sunstone, including month and quarter-end financials and reporting, preparation of the budget for the 2025 financial year, managing accounts payable (including the oversight of posting and paying of invoices), payroll payments to staff (being on 14 April), and treasury activities (including currency trades).

(8) *Issue 24 – Issues of shares to employees on Exercise of Performance Rights on 11 occasions*

47. As noted in the table above, a Cleansing Notice was not issued for each instalment issue of shares comprising Issue 24.
48. At all material times in respect of Issue 24, ASIC had provided relief from the need to lodge Cleansing Notices in relation to the exercise of performance rights by employees in Class Order 14/1000 (**Class Order**), subject to compliance with certain conditions in

.....  
Lucas Welsh

.....

the Class Order. Compliance includes lodging a Form CF08 with ASIC and providing offer documents that include the information set out in the Class Order.

49. I have reviewed the Company's records and the publicly available records of ASIC which do not show evidence that a Form CF08 was lodged with ASIC and accordingly, that relief was not available under the Class Order. I have also since checked the relevant employee offer booklets, sought legal advice on them, and identified that as they had lacked a specific 'risks' section, they would not have been compliant with the Class Order for this reason also, such that for each instalment issue of shares upon an employee exercise of performance rights, a Cleansing Notice ought to have been issued.

#### **Events since discovery of the failures of Sunstone to issue Cleansing Notices**

50. As deposed to above, on Tuesday, 13 May 2025, I issued to the ASX a trading halt request. On Thursday, 15 May 2025, I also issued a request to the ASX for a voluntary suspension of Sunstone from trading on the ASX whilst the matters deposed to in this affidavit are resolved by the Court.
51. Closer to the hearing date, a further affidavit will be provided to update the Court as to communications with the ASX and with ASIC in relation to these cleansing notice matters and the intended Federal Court hearing.

#### *Notice to Shareholders*

52. I have determined, by consulting Sunstone's records, including its share register via the Computershare platform (Sunstone's registry provider), that save for each of the affected directors (Messrs Norris, Stroud, O'Connor and Duffy) and the former director Mr Ascough (which I depose to further below), shareholders have traded in shares issued to them pursuant to the share issues discussed above as being deficient in terms of disclosure.
53. In addition to notifying all shareholders and former shareholders of a cleansing notice compliance issue by way of the Trading Halt request and the Voluntary Suspension request published online with the associated ASX announcements, all shareholders and former shareholders will also be notified of the Federal Court application hearing date, location and time by way of public ASX announcement, once it is fixed, and a list of all the affected share issues will be included.

54. Further, we will do all that we can to provide as many shareholders/former shareholders as possible with direct notification. We are unable to identify and contact all those who received issue of affected shares directly in the time available, because the Company does not have email address for every such member and there is insufficient time to issue a notice to each by post. However, we can and will send direct notification of the affected share issues and the Federal Court application hearing details as follows –
- (a) to all shareholders (and former shareholders) whose email addresses we hold (approximately 1,500). For current shareholders, based on my review of Sunstone's share register, I estimate we have email addresses for approximately 40% of all shareholders. We do not have it for the balance of shareholders as they did not subscribe for shares directly with us, but as beneficial holders through registered holders such as HSBC Custody Nominees (Australia), BNP Paribas Nominees Pty Ltd, and Citicorp Nominees Pty Ltd;
  - (b) to the brokers (Morgans Corporate Limited and Canaccord Genuity) through whom shareholders have subscribed for shares in Sunstone in the relevant period, asking them to pass on the notification by email to those shareholders immediately;
  - (c) to all affected employees, of whom there are six (6) (being three Australian employees and three Ecuadorian employees), and two (2) former employees who were with Sunstone during the relevant period;
  - (d) to all affected directors and former directors.
55. On the afternoon of 16 May 2025, I was informed by email from Mrs Sarah Beattie, Senior Associate at Thomson Geer, that the Federal Court would hear Sunstone's proposed application for relief at 10.30 AM on Tuesday, 20 May 2025. We then worked on preparing an ASX announcement. Later that evening at or around 6:14 PM, I caused an announcement to the ASX to be published which set out details as to the listing of the hearing which included a list of all of the affected share issues so that shareholders and former shareholders could ascertain which share issues were affected.
56. Exhibited hereto and marked "LW-17" is a true copy of that ASX Announcement. I understand that a copy of that announcement was automatically sent by email to Sunstone's shareholders for which Sunstone has an email address for upon the making of the announcement.

*Notice to directors and former directors*

57. I have also determined by consulting Sunstone's records, including its share register via the Computershare platform (Sunstone's registry provider), that each of the affected directors (Messrs Norris, Stroud, O'Connor and Duffy) and the former director Mr Ascough have not traded in any of the shares issued to them pursuant to the share issues discussed above as being deficient in terms of disclosure, being Issues 14, 18 and 21.
58. I have emailed each of those gentlemen in relation to those Issues and advised them that Sunstone proposes to apply for relief regularising the shares issued to them given the lack of a Cleansing Notice accompanying those issues. I have since received a response from each of those directors indicating that they have no concerns with the proposed application. Exhibited and marked "LW-18" is a true copy of my emails to each of Messrs Norris, Stroud, O'Connor and Duffy and Mr Ascough and their response to me.

*Review for excluded information*

59. I have also undertaken a review of Sunstone's records, and pricing information at <https://au.finance.yahoo.com/quote/STM.AX/> (**Yahoo finance reports page**), via the ASX at <https://www.asx.com.au/markets/company/STM> and reviewing relevant ASX announcements with a view to identifying whether there had been anything to disclose at the time of each Cleansing Notice failure as 'excluded information', and tracking movements in the closing share price of Sunstone at or about the time of each relevant share issue. Specifically, I have:
- (a) had regard to other Cleansing Notices, any announcements, particularly price-sensitive announcements, released to the market in the period following when a cleansing notice was due in each case;
  - (b) assessed movements in Sunstone's closing share price for the month after the date on which a Cleansing Notice was due for all affected share issues; and
  - (c) for issues where there had possibly or likely been 'excluded information', assessed movements in Sunstone's closing share price between the date the Cleansing Notice was due and the date that information was released to the market by way of an announcement on the ASX.

60. The information in the further table set out below, based on my review, demonstrates that:

- (a) there was no excluded information that would have been disclosed in any Cleansing Notice had one been issued;
- (b) announcements made subsequent to the share issues were foreshadowed in earlier announcements to the market;
- (c) Sunstone was otherwise complying with its continuous disclosure obligations when each potentially problematic share issue occurred.

An announcement was made on 17 March 2022 indicating high-grade porphyry continuation at the Alba deposit at Bramaderos.  Announcement was made on 27 April 2022 indicating strong assays results at the Alba deposit.	It appears that all continuous disclosure obligations were met, with market updated as new information become available. Cleansing notice was issued, just had a technical defect as noted above.  While the announcement on 27 April 2022 was released after shares were issued on 22 April 2022, this would have been due to the requirement to wait for final assay results to be received. It is noted that the potential for the results was noted in the release of 17 March 2022.  Placement shares were issued at \$0.067 which the market may temporarily trade to.  The decline in share price can be attributed to the dilutive effect on share price from the placement and the SPP which was launched on 21 April 2022. Collectively the placement and the SPP were approximately 15% of the shares on issue at the time.

Shares relating to the performance rights scheme are issued for zero consideration based on the accomplishment of vesting conditions.  Records including the share register confirm that none of the employees who received shares under the employee share scheme sold those shares within 12 months of receiving them.

61. What this cross-check demonstrates is consistent with the fact that Sunstone has made and makes regular announcements to the market containing information which is thereby made available to all shareholders and potential shareholders.

### Prejudice

62. I am not aware of any prejudice or substantial injustice that has been caused by the failures to issue Cleansing Notices, or to do so within time, as described above. To the best of my knowledge, I am not aware of any prejudice or substantial injustice that is likely to be caused to any person by the making of the orders Sunstone now seeks.
63. By contrast, I apprehend that there will be real prejudice suffered if the orders sought by Sunstone are not made. Those prejudiced will include:

  
.....  
Lucas Welsh

  
.....  
Witness

- (a) **the people and entities who have bought and sold shares since their issue** – if the orders sought are not made, there may be prejudice to those shareholders, given the potential uncertainty as to title – whether those transactions selling the shares may be void or voidable, and whether the current holders of the relevant shares can properly now sell their shares;
- (b) **the other shareholders of Sunstone** – Sunstone has properly entered into a voluntary suspension. If orders are not made by the Court and the voluntary suspension is not lifted, Sunstone's shareholders will not have the benefit of an active market for their shares;
- (c) **Sunstone and its stakeholders** – if the orders are not made, there may be substantial prejudice to Sunstone and its stakeholders on several fronts. Any subsequent sale of the relevant shares may be void or voidable, which will give rise to commercial uncertainty and expense for Sunstone. Moreover, Sunstone is hamstrung in its ability to raise capital from the market until this matter is resolved and the voluntary suspension lifted, which has the obvious potential to cause commercial uncertainty and harm, to the detriment of Sunstone, its employees and its shareholders and its stakeholders.

As mentioned above, the Company requested a voluntary suspension of its shares from Thursday, 15 May 2025. If the Company is suspended for more than five (5) days, it will be unable to issue any Cleansing Notices at all for the following 12 month period.

ASX will not lift the voluntary suspension of the Company's trading of its shares until:

- (i) the Company announces that the Court has granted the relief sought under this originating process; and
- (ii) the Company lodges a Cleansing Prospectus.

If the orders are not made by 20 May 2025, there is a significant risk that:

- (i) the Company cannot comply with these requirements within five (5) days from the beginning of the voluntary suspension; and

  
.....  
Lucas Welsh

  
.....  
Witness

(ii) even if it does comply with these requirements, ASX will lift the voluntary suspension after the five (5) day window has elapsed.

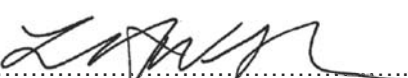

(d) **Capital raising** – additionally, and as adverted to above, Sunstone may undertake a further capital raising to progress its exploration projects in Ecuador. As a junior exploration company, Sunstone does not currently generate revenue and is therefore reliant on capital markets to fund exploration programs to progress the projects through to development and eventual production.

64. By this application, Sunstone seeks orders to rectify the non-issue of Cleansing Notices identified above for the protection of affected shareholders, so as to address issues of validity of transactions and title, and of potential liability for shareholders who have on-sold the affected shares to date. Looking forward, it also seeks orders to correct the position so as properly to permit future trading of those shares by shareholders who currently or will in the future hold them. In that regard, I am working with Thomson Geer to prepare a draft Cleansing Prospectus to appropriately rectify the position moving forward so that future trading in the affected shares may properly proceed.

#### **Ensuring robust compliance practices in the future**

65. In light of the matters addressed in this affidavit, I have already commenced work on implementing and recording in writing practices and procedures – to ensure that the Company's disclosure obligations are properly complied with and technically correct for further share issues in the future, including the correct issue of Cleansing Notices when and in the timeframes required. This will include developing and completing standard operating procedures/checklists in relation to all types of share issues used by Sunstone, reviewing relevant updates on the Corporations Act or from regulators (ASIC, ASX etc.). In addition, Sunstone will retain Thomson Geer Lawyers for the next 12 months, to oversee compliance matters with respect to any proposed issue of shares, as an extra layer of oversight so that we can ensure our understanding and processes have been properly corrected, and our updated compliance procedures/checklists are working effectively. A compliance report is currently issued to the Board as part of their Board papers, and this will be extended to include reference to specific compliance with all laws and regulations for share issues including as to cleansing notice/disclosure requirements.

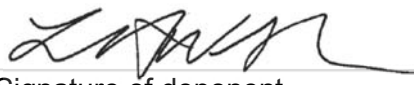

66. It is my sincere belief that these measures will ensure that the non-issue of Cleansing Notices does not occur again, and will enable Sunstone to accurately determine when a Cleaning Notice should be issued.

##### **Note:**

For each class of shares issued by a company, ASIC records the details of the twenty members of the class (based on shareholdings). The details of any other members holding the same number of shares as the twentieth ranked member will also be recorded by ASIC on the database. Where available, historical records show that a member has ceased to be ranked amongst the twenty members. This may, but does not necessarily mean, that they have ceased to be a member of the company.

##### **Notes:**

On 30 January 2012, the Personal Property Securities Register (PPS Register) commenced.

At that time ASIC transferred all details of current charges to the PPS Registrar.

ASIC can only provide details of satisfied charges prior to that date.

Details of current charges, or charge satisfied since 30 January 2012 can be found on the PPS Register, [www.ppsr.gov.au](http://www.ppsr.gov.au).

InfoTrack may cap documents for on-file searches to 250.

## **AVALON MINERALS LISTS ON ASX TODAY COMMENCES \$1.63M LENNARD SHELF BASE METALS EXPLORATION PROGRAM**

---

Newly launched Australian base metals company, Avalon Minerals Limited (**ASX: AVI**), is set to make its debut on the Australian Stock Exchange at **10.30am (WDST)** today (Thursday, 22 March) following a successful \$3.5 million Initial Public Offering (IPO) underpinning a major new exploration program in one of Western Australia's most productive zinc provinces. Avalon is headed up by well-known Australian mining executive, Mr David McSweeney.

The IPO – comprising 17.5 million shares at 20 cents each – closed less than a month following the launch of the Prospectus on 16 February after attracting strong Australian and international investor support, including a cornerstone investment by Hong Kong-based metals trader Sinom. Oversubscriptions were not accepted for the offer.

The \$3.5 million raised will underpin initial exploration of Avalon's Lennard Shelf Project, located within an acclaimed zinc province in the West Kimberley region of Western Australia. In 2003, reported resources in the Lennard Shelf region totalled 22.18 million tonnes, grading 6.9% zinc and 2.8% lead.

Avalon has assembled a large Lennard Shelf landholding, with three granted and 11 pending exploration licences covering 2,600sq km within three distinct project areas – each containing untested zinc targets considered highly prospective for large Mississippi Valley Style (MVT) deposits.

The Company has budgeted \$1.63 million for a comprehensive two-year exploration program initially covering the Lawford, Oscar Range and Barramundi projects, with the objective of rapidly developing a significant base metal resource inventory in the Lennard Shelf region.

Work will commence next month, with field crews employed to conduct detailed sampling and mapping, using the latest hand-held geochemical sampling analysis equipment.

"The Lennard Shelf area of the West Kimberley region of Western Australia is a world-class base metal province," said Avalon's Executive Chairman and Managing Director, Mr David McSweeney. "Until very recently, it was the State's largest source of zinc and lead production.

“Avalon has noted with interest the recent recommencement of mining and processing operations at the Pillara Zinc Mine, owned by TeckCominco and Xstrata, and located just 28km from our Lennard Shelf Lawford Project,” he added.

Avalon’s successful IPO and listing will also ensure the Company can progress its Paterson Range copper-gold Project in the Pilbara region, covering seven licences located in close proximity to the Telfer Gold Mine, Nifty Copper Mine and Kintyre Uranium Deposit.

“We will be a proactive and aggressive exploration company, with a focus on adding value rapidly for our shareholders by applying innovative thinking and techniques to unlock the value of our excellent asset base and moving quickly to secure additional opportunities,” Mr McSweeney said.

In addition to Mr McSweeney, Avalon’s Board also includes Non-Executive Directors Mr Gary Steinepreis, a well known corporate accountant and advisor, and respected geologist, Mr Stephen Stone.

“Together with my fellow Avalon Directors, I would like to welcome all shareholders and thank them for their support,” Mr McSweeney said. “We are keen to develop projects that will supply raw materials to large, high-growth markets such as China and in that regard, are particularly please to have Sinom on board.

“We look forward to providing further announcements of our activities, including exploration and project generation updates.”

At the time of listing, Avalon will have 40 million ordinary shares on issue to approximately 500 shareholders.

27 MARCH 2025

# Sunstone raises \$4M in share placement

Placement will provide working capital as Company advances corporate discussions

Sunstone Metals Limited (ASX:STM) is pleased to advise that it has received firm commitments for \$4,000,000 (before costs of \$240,000) via an oversubscribed share placement at 0.5 cents (\$0.005) per share (Placement) to existing institutional and sophisticated shareholders and new investors.

The proceeds of the Placement will be used to fund working capital for the Company as it progresses the ongoing corporate discussions to a conclusion. As previously announced, Sunstone has been pursuing partnership opportunities to unlock the value of its substantial gold and copper discoveries. This process has involved several parties accessing Sunstone's data room and undertaking site visits.

As a result of these discussions, an attractive opportunity has advanced to the stage where, in the short term, a confidential and incomplete non-binding indicative offer could be finalised. This would be followed by a confirmatory diligence phase. The Company is engaging with the party and is well advanced in its due diligence investigations in relation to the proposal and associated transaction risks.

The Company is separately progressing due diligence and commercial discussions for a material business transaction, which could result in a nearer-term gold development asset, currently privately owned, being combined with Sunstone's two large gold-copper assets. The Company has hosted an asset site visit and continues to engage with the major shareholders to discuss and evaluate the strategic rationale of the combination.

There is no certainty or assurance that any proposals will be received or, if received, will be acceptable, either in principle or otherwise, or will result in a binding transaction. The Company will provide further information when appropriate under its continuous disclosure obligations.

## PLACEMENT DETAILS

The Placement comprises 800,000,000 new shares, with 772,500,545 new shares to be issued within the Company's available capacity under ASX Listing Rule 7.1 and 27,499,455 new shares to be issued within the Company's available capacity under Listing Rule 7.1A.

New shares issued under the Placement will rank equally with existing shares on issue in the Company.

The offer price of 0.5 cents (\$0.005) represents a discount of:

- 16.7% to the last closing of 0.6 cents (\$0.006) on 25 March 2025;
- 19.3% to the 10-day volume weighted average price of 0.62 cents (\$0.0062) as at 25 March 2025. and
- 18.0% to the 15-day volume weighted average price of 0.61 cents (\$0.0061) as at 25 March 2025.

Morgans Corporate Limited and Canaccord Genuity acted as Joint Lead Managers to the Placement.

This announcement has been approved by the Board.

# Defining Multi Decade Gold-Copper Projects

Investor Presentation  
March 2025

# Investment Opportunity

- Sunstone Metals Limited ('Company' or 'Sunstone') is currently in discussions with multiple parties regarding potential corporate initiatives and is seeking to raise approximately A\$4 million to support the continuation and finalisation of these discussions.
  - A number of parties have signed confidentiality agreements and have subsequently been granted access to a data room and undertaken site visits.
  - The Company has been exploring various opportunities and structures, some more advanced than others.
- Sunstone is targeting, and delivering, large scale porphyry gold-copper discoveries in Ecuador
- The Sunstone team has a track record of globally significant copper-gold porphyry discovery
  - Tujuh Bukit, Indonesia
  - Alpala, Cascabel, Ecuador
- The Sunstone team is now delivering a high discovery success rate with multiple mineralised porphyry deposits
  - At the Bramaderos Project (STM 87.5%) in southern Ecuador, drilling has confirmed a number of distinct epithermal and porphyry deposits and delivered an Inaugural MRE of 2.7Mozs<sup>1</sup> AuEq with an additional Exploration Target of between 3.3 and 8.6 Mozs AuEq<sup>2</sup>. Drilling continues to make new discoveries to grow resources and define higher grades.
  - At the El Palmar Project (STM 74.5% up to 100%) in northern Ecuador, drilling has discovered several well mineralised porphyries, in the same regional belt which hosts the Cascabel deposit. In October 2024, Sunstone announced an inaugural MRE of 64Mt at 0.60g/t for 1.2Moz AuEq<sup>3</sup>. In addition, Sunstone announced a large Exploration Target of 1.0Bt to 1.2Bt at 0.3g/t to 0.7g/t gold and 0.1% to 0.3% copper for 15M to 45Moz AuEq<sup>3</sup>. Drilling continues to make new discoveries.

<sup>1</sup> See ASX announcement 13 Dec 2022; 154Mt at 0.53g/t for 2.7Moz AuEq

<sup>2</sup> 255-360Mt at grade between 0.40-0.74 g/t AuEq for 3.3-8.6Moz AuEq

<sup>3</sup> See ASX announcement 22 Oct 2024

# Corporate discussions

## Sunstone is in corporate discussions with multiple parties

- Access to Sunstone data room and site visits undertaken within Confidentiality Agreements
- The Company has been exploring various opportunities and structures, some more advanced than others, including:
  1. Corporate-level transaction
  2. Project-level Joint Venture earn-in agreements
  3. Combination with complimentary nearer-term development asset

## Potential transactions

- An attractive opportunity has advanced to the stage where, in the short term, a confidential and incomplete non-binding indicative offer could be finalised. This would be followed by a confirmatory diligence phase. The Company is engaging with the party and is well advanced in its due diligence investigations in relation to the proposal and associated transaction risks.
- The Company is separately progressing due diligence and commercial discussions for a material business transaction, which could result in a nearer-term gold development asset, currently privately owned, being combined with Sunstone's two large gold-copper assets. The Company has hosted an asset site visit and continues to engage with the major shareholders to discuss and evaluate the strategic rationale of the combination.

There is no certainty or assurance that any proposals will be received or, if received, will be acceptable, either in principle or otherwise, or will result in a binding transaction. The Company will provide further information when appropriate under its continuous disclosure obligations.

## Our Strategy

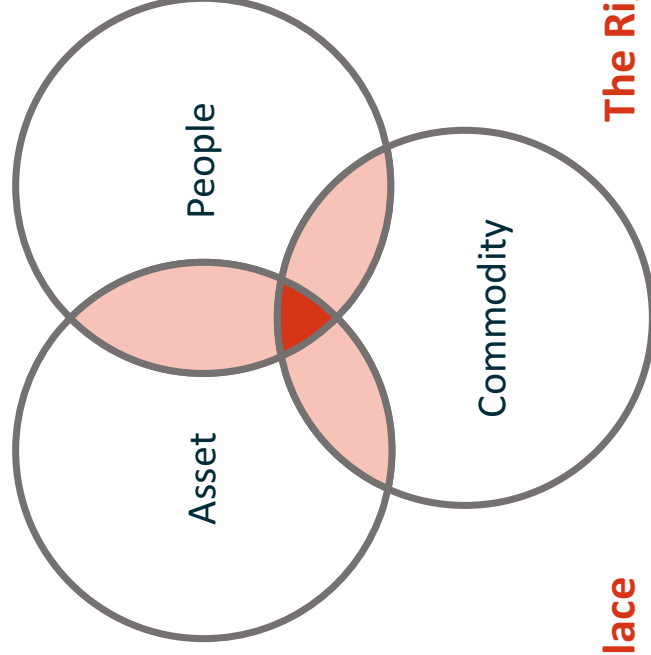

Crafting our advantage

### The Right Asset

We aim to own large,  
tier-1 scale assets

**The Right People**  
Embedding the right skillsets  
to execute tier 1 projects

### The Right Place

Maintaining development  
and partner optionality

**The Right Commodity**

# Our Flagship Assets

## El Palmar

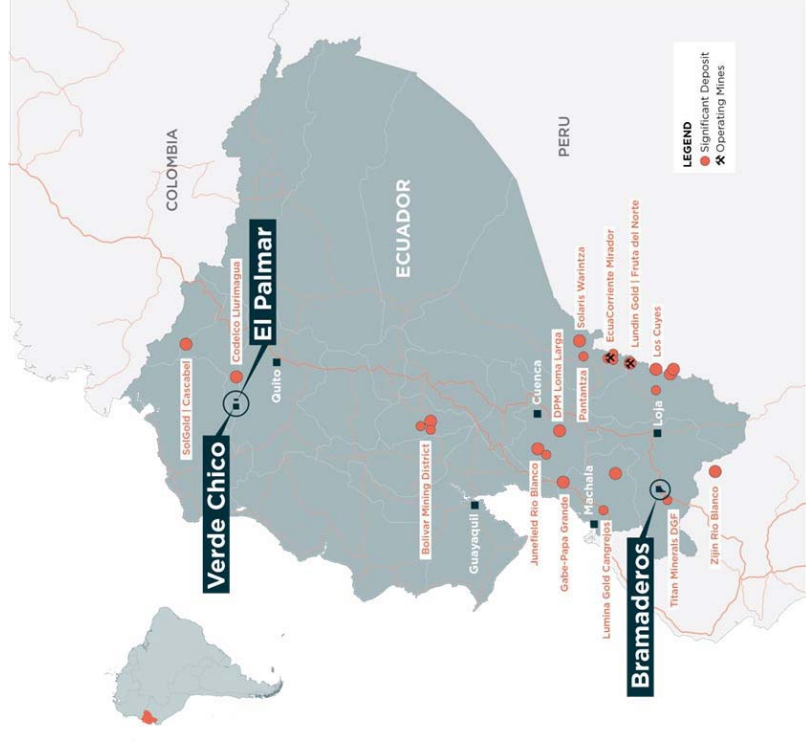

Delivering a century-scale asset

- Major bulk scale, low-cost gold-copper deposit in Northern Ecuador
- 17,799m of drilling defines orebody extending over 1,750m deep
- 1.2Moz AuEq<sup>2</sup> Maiden JORC Resource<sup>1</sup> from top 450m of the T1 target
- **15M – 45Moz AuEq<sup>3</sup> Exploration Target<sup>1</sup> across T1, T2 & T3 targets**

## Bramaderos

Large-tonnage, low-cost, ideal location

- High grade gold-copper-silver systems extending from surface
- World class thickness and grades incl. 185m @ 2.85g/t AuEq
- 2.7Moz AuEq<sup>4</sup> Maiden JORC Resource<sup>6</sup>
- **7M – 13Moz AuEq Exploration Target<sup>5</sup>, (including Resource)**

<sup>1</sup> See ASX announcement 22 Oct 2024

<sup>2</sup> 64Mt at 0.60g/t AuEq for 1.2Moz AuEq

<sup>3</sup> 1.0 -1.2Bt at grade between 0.3-0.7 g/t Au and 0.1-0.3% copper

<sup>4</sup> 156Mt at 0.53g/t AuEq for 2.7Moz AuEq

<sup>5</sup> 2.7Moz AuEq Resource + Limon Exploration Target (30-44Mt at grade between 0.9-1.2g/t AuEq for 0.8 to 1.7Moz AuEq) + porphyry Exploration Target (255-360Mt at grade between 0.40-0.74g/t AuEq for 3.3-8.6Moz AuEq)

# Our Experienced Team

## BOARD OF DIRECTORS

**Patrick Duffy**

**Managing Director & CEO**

Ex-Red 5, Glencore and Xstrata, Mr Duffy brings international leadership and capital markets experience with a successful mine development track record

**Malcolm Norris**

**Non-Executive Chair**

Ex-WMC, Intrepid and SolGold, Mr Norris has been part of several major global porphyry discoveries and brings mineral exploration and management expertise

**Neal O'Connor**

**Non-Executive Director**

Former Xstrata Copper Chief Legal Counsel, Mr O'Connor has extensive experience developing South American mining operations and infrastructure

**Stephen Stroud**

**Non-Executive Director**

Mr Stroud is Director – Corporate Finance at Morgans and brings extensive capital markets knowledge and investor relationships

## MANAGEMENT TEAM

**Dr Bruce Rohrlach**

**General Manager - Exploration**

Ex-WMC, Intrepid and SolGold, Dr Rohrlach has been part of several major porphyry discoveries and oversees all exploration programs at Sunstone

**Lucas Welsh**

**CFO & Company Secretary**

Former CFO of St Barbara, Mr Welsh is a specialist resources financial executive with international mining, capital markets and governance expertise

**Ray Robinson**

**GM – Studies & Tech Services**

Ex-PanAust, Placer Dome and Intrepid, Mr Robinson has extensive mining studies and operations experience, and oversees all study programs at Sunstone

**Rodrigo Izurieta**

**Country Manager**

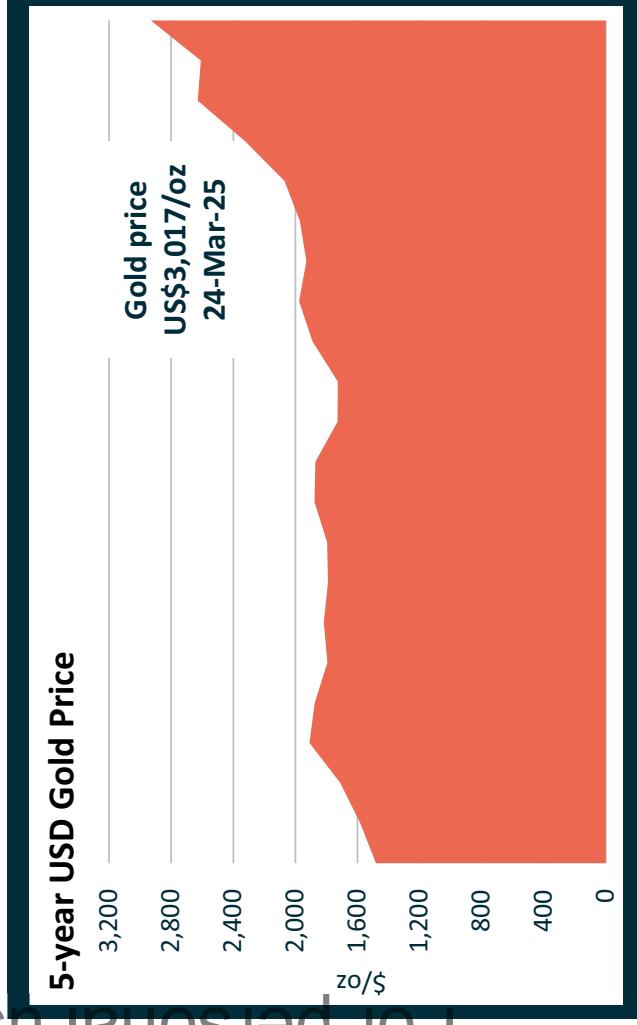

Based in Quito, Ecuador, and US-educated, Mr Izurieta is highly respected with deep relationships in the local mining industry and government

# Our Commodity Advantage

## Record high AUD gold prices

- ✓ Regional conflicts, trade restrictions, shift from USD
- ✓ Inflation subsiding, USD rate cuts are imminent
- ✓ Favorable AUD:USD exchange rate lifts value to Sunstone

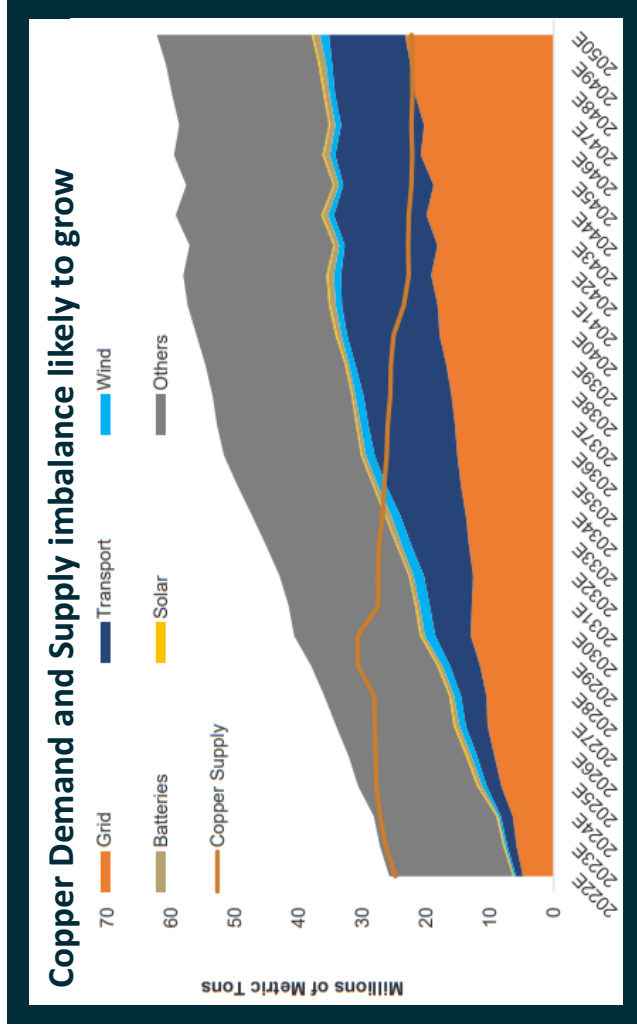

Source: Bloomberg

ASX:STM  
22

## Strategic demand for tier-1 scale copper assets

- ✓ New copper supply coming from difficult jurisdictions
- ✓ Net Zero Transition requires huge increase in copper
- ✓ Increasing M&A from multinational miners for large projects

Source: Sprott Webcast, March 23

# Ecuador – Rich in Gold and Copper

**Pro-responsible mining government**

- President actively encouraging responsible mining
- Single national mining department

**Forms part of the worlds most endowed copper gold belt**

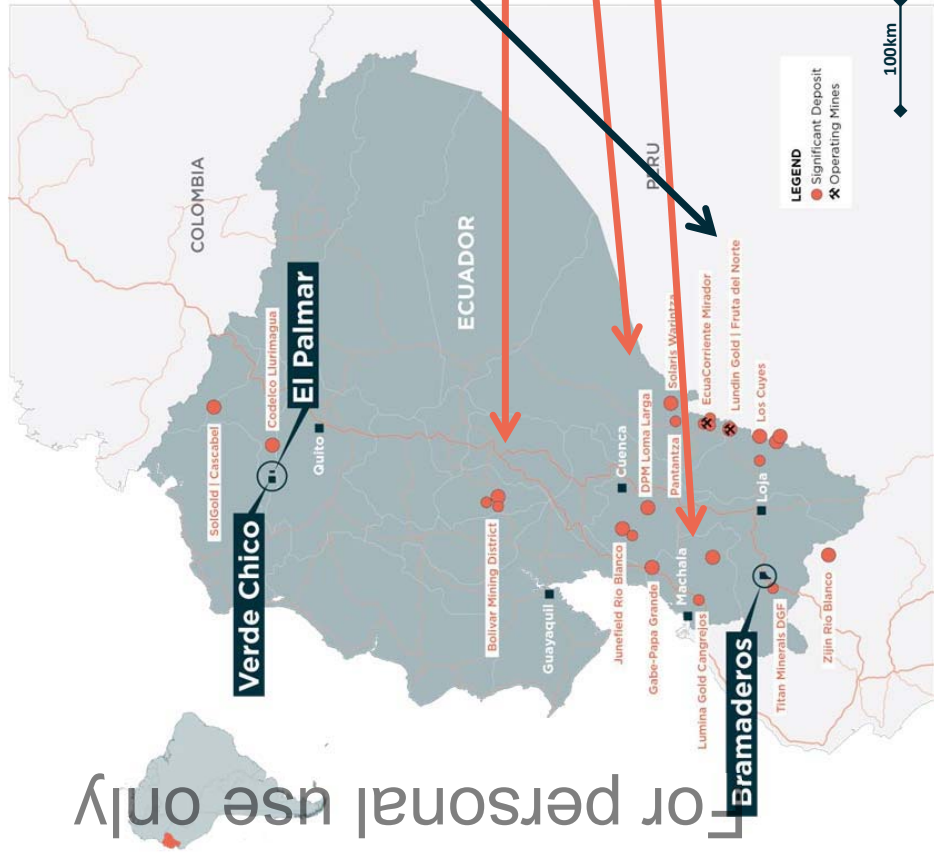

- 2 world-class operating mines – Fruta del Norte, Mirador
- All majors present (BHP, Newmont, Barrick, Codelco)

**Recent Mining Investments**

- Adventus – El Domo Curipamba Copper/Gold Project
- Dundee – Loma Larga Gold Project
- Lumina Gold – Cangrejos Gold Project

**FY24 Highlight Transaction**

- ✓ Solgold US\$750m financing for Cascabel Project
- ✓ Hancock US\$120m 49% JV earn-in with ENAMI
- ✓ Silvercorp US\$200m merger with Adventus

# Ecuador – Our Cost Advantage

## Ecuador has two world-class, lowest cost-quartile operating mines

- Fruta del Norte Gold Mine (Lundin Gold)
- Mirador Copper Mine (Chinese-owned)

## Low mining input costs are a competitive advantage

- Energy and Labour both significantly lower than Australia and Canada
- Potential for Sunstone's projects to be in the lowest cost quartile
- Complimented by very low stripping ratios

## Hydro provides base energy load for the country (>90%)

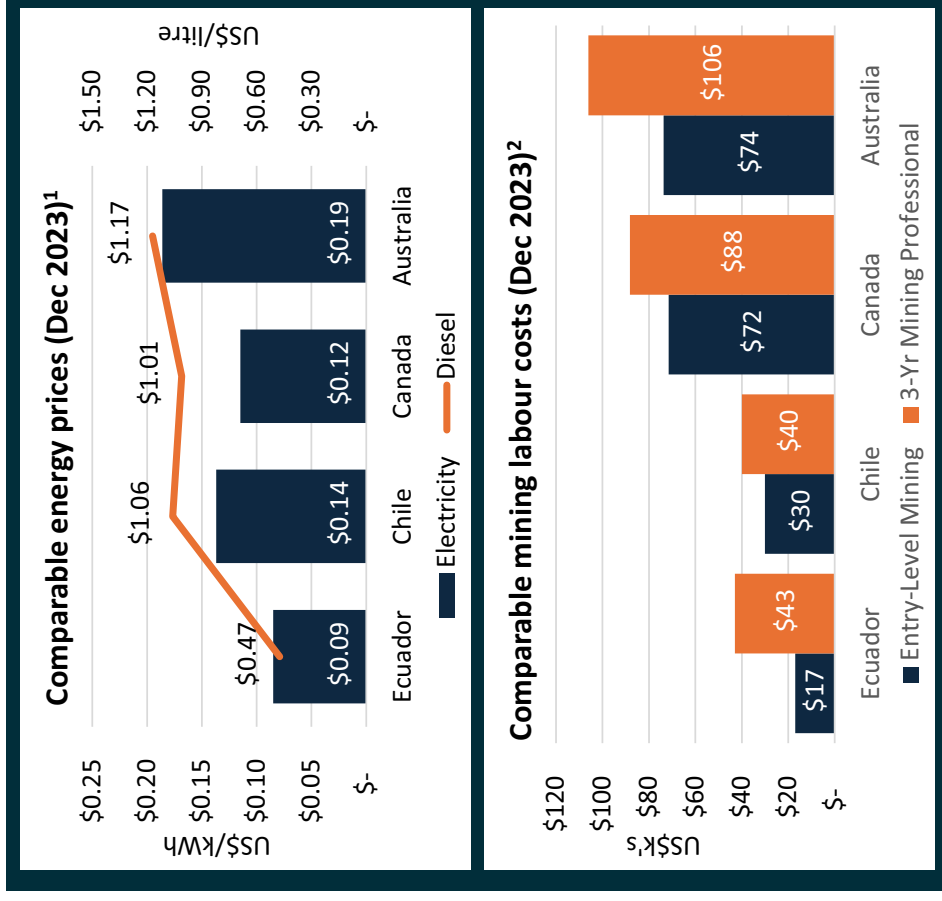

- Potential for low-cost, low-carbon emission mining

## Ecuador's currency is USD

- Provides protection against inflation

# El Palmar

Defining a bulk-scale, low-cost Gold-Copper Tier 1 deposit

# El Palmar: Surrounded by Giants

Highly prospective mineralised district related to the Toachi Fault Zone

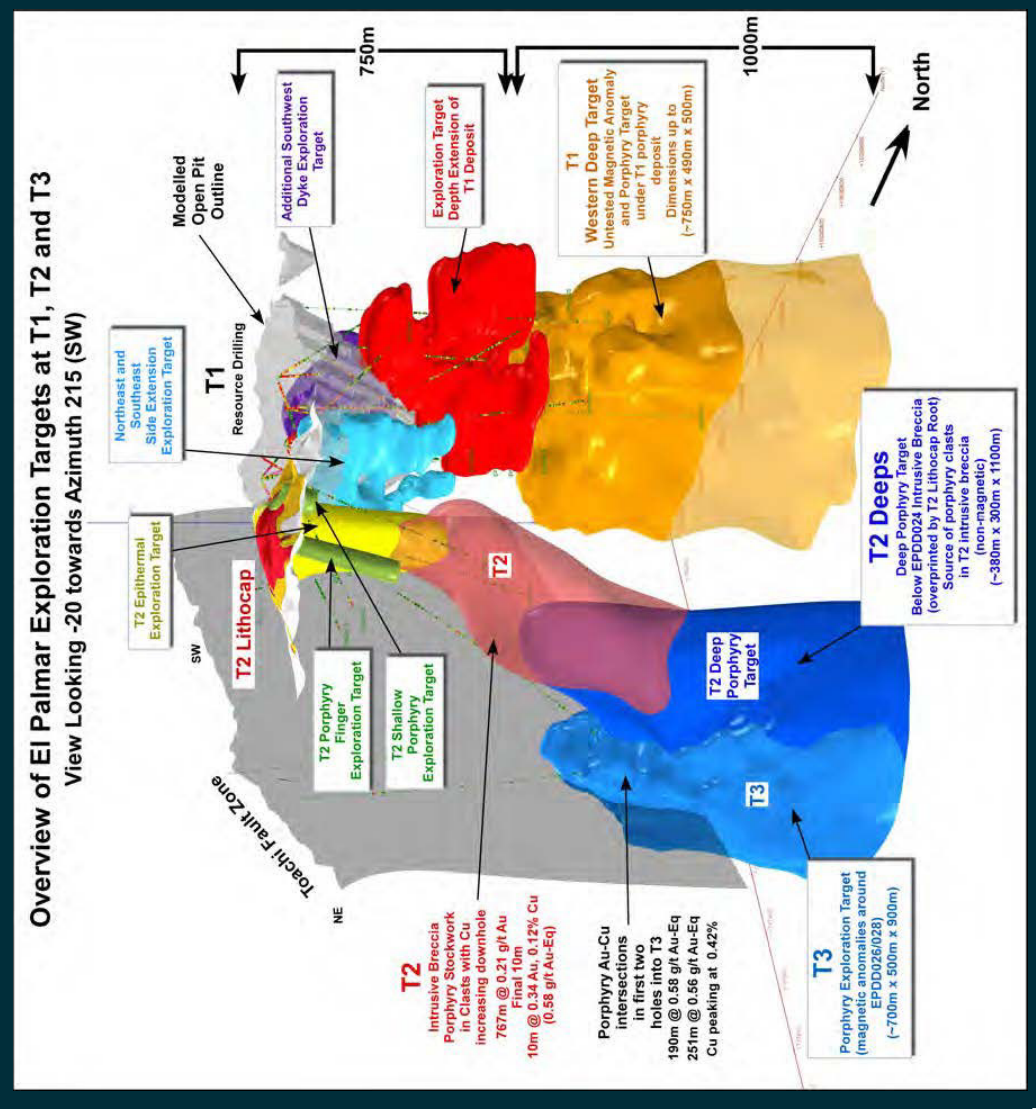

## Tier 1 regional deposits

- 2.7Bt Alpala copper-gold porphyry deposit (0.53% CuEq) at Cascabel
- 0.53Bt Tandayama-America copper-gold porphyry deposit (0.36% CuEq) at Cascabel
- 1Bt Llorimagua copper-moly porphyry deposit (1.0% CuEq)

Hancock investing US\$120m to earn 49% into JV with state-owned ENAMI in northern Ecuador (adjacent to El Palmar)

# El Palmar: Uncovering the next Giant

Overview of El Palmar Exploration Targets at T1, T2 and T3  
View Looking -20 towards Azimuth 215 (SW)

**Significant gold-copper deposit with mineralisation extending beyond 1,750m deep**

- Drilling totaling 17,699m completed to date
- Three targets defined, with T2 and T3 both extending at depth beyond 1,750m
- Deep drilling at T3 delivers results such as 251m @ 0.56g/t AuEq confirming consistent grade at depth
- **Maiden resource defined from near-surface drilling**

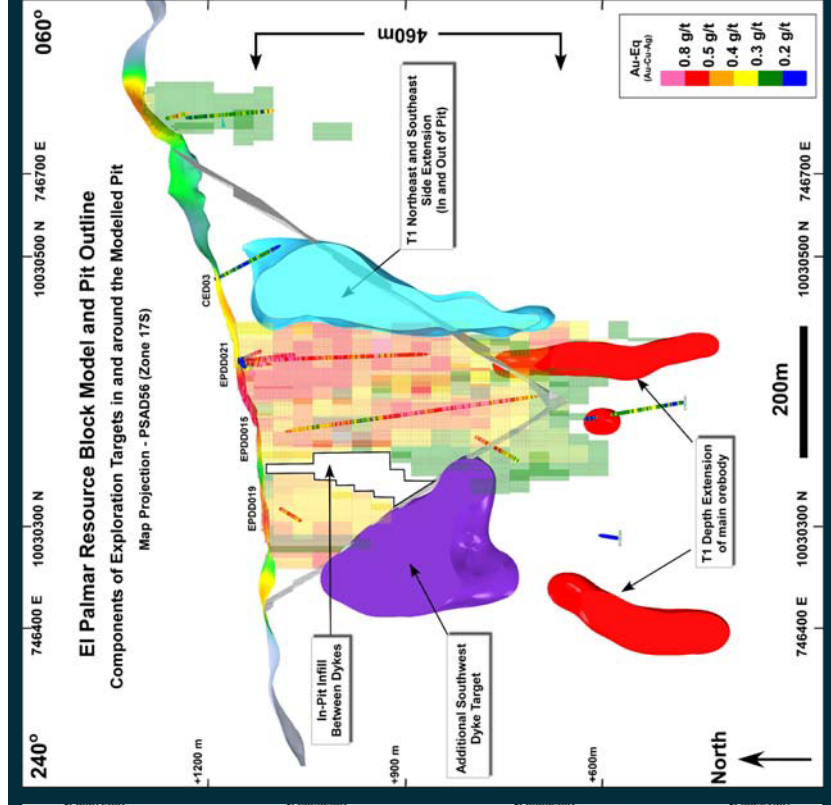

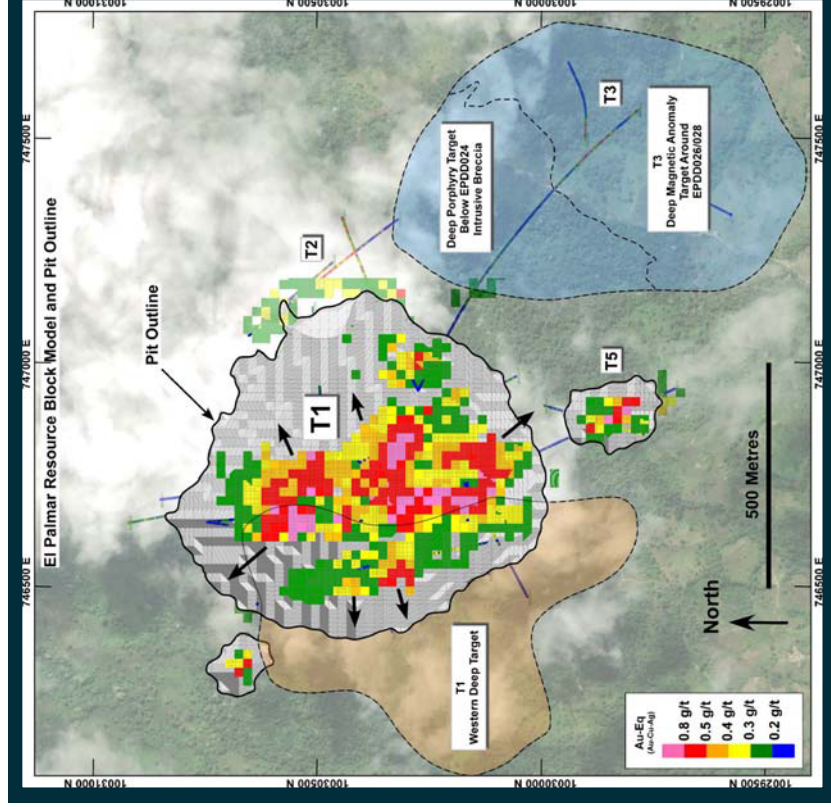

**Gold and copper Exploration Target of  
15M - 45Moz AuEq<sup>1</sup>**

- 1.0Bt to 1.2Bt at a grade between 0.3g/t to 0.7g/t gold and 0.1% to 0.3% copper
- Contained metal of between 10Moz and 27Moz gold and 1.0Mt to 3.7Mt copper
- Immense potential for El Palmar to grow:
  - ✓ Based on only three of five identified targets
  - ✓ Potential for copper content to increase

<sup>1</sup> See slides 28-31 for full JORC details

# El Palmar: Maiden Resource

**Confirmed 1.2Moz  
Maiden Resource<sup>1</sup>**

Significant potential to expand the T1 MRE and pit shell:

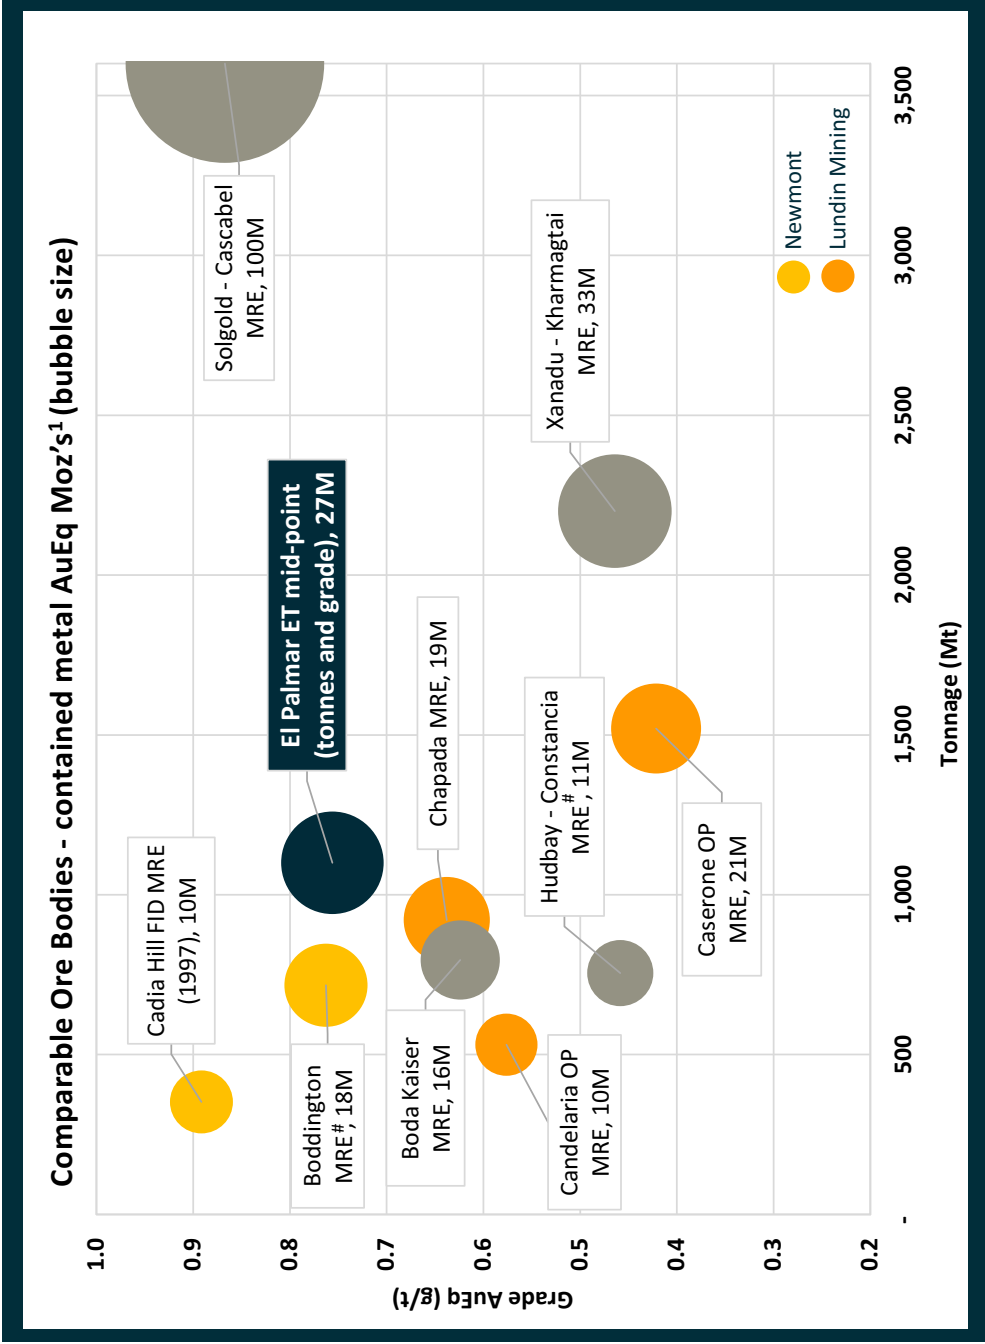

- Areas within the pit shell still to be drilled
- Targets adjacent to and directly below the pit shell will expand the pit size over time
- Expectation of a very low mine stripping ratio

**Resource defined from the top 450m of T1 only**

T1 has the potential to be advanced as a large open pit opportunity before expanding exploration and development of the deeper porphyry opportunities

<sup>1</sup> 64Mt at 0.60g/t AuEq for 1.2Moz AuEq. See slides 28-31 for full JORC details

# El Palmar: True Tier-1 Scale

15M – 45M oz AuEq<sup>2</sup>  
El Palmar Exploration Target demonstrates potential to rank alongside Tier 1 global gold-copper mines

- High tonnage, low cost potential:
- 1. Bulk mining/processing at scale
  - 2. Low strip ratios
  - 3. Lower labour and energy costs in the host jurisdiction

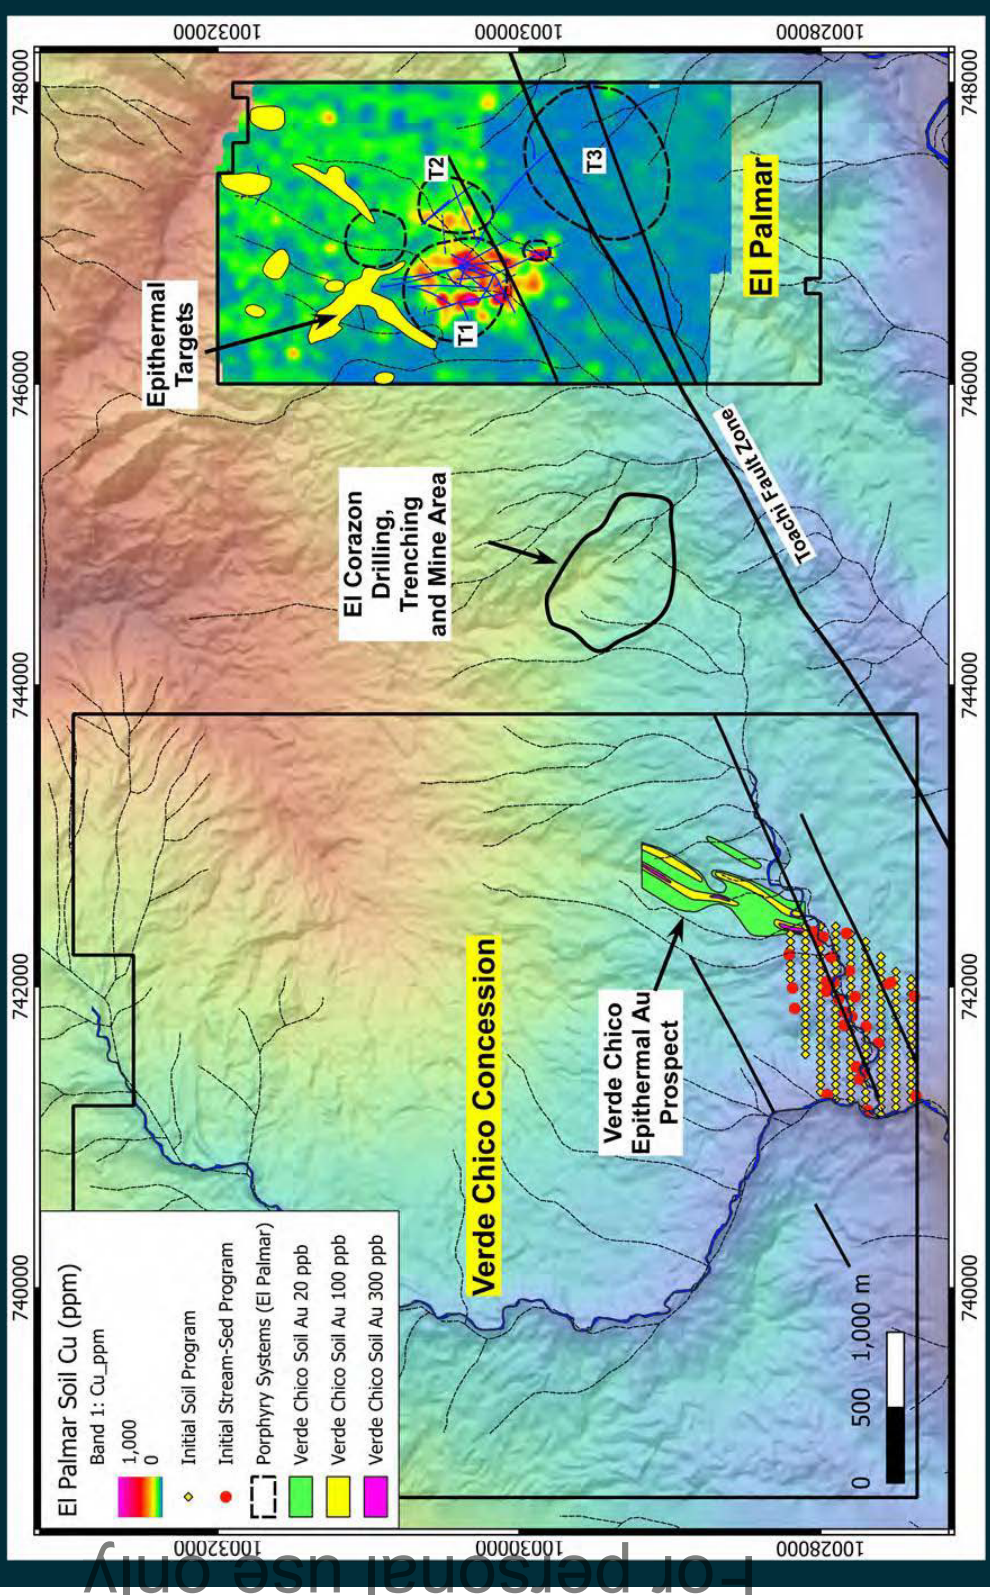

Compares favourably with two of Australia's premier mines (owned by Newmont) and Lundin Mining's three South American flagship mines

# Verde Chico: High-Grade Gold Hits

Epithermal gold exploration with high-grade historical results confirmed

Exploration at Verde Chico has commenced with initial follow-up to the known high-grade gold mineralisation

Historical exploration from the 1990's includes:

- Perdida vein - 6.5m @ 25.11 g/t Au
- Peligrosa vein - **24m @ 21.2 g/t Au**, 19m @ 7.72 g/t Au, 25m @ 10.24 g/t Au
- Gato vein - 39m @ 3.08 g/t Au
- Pavas vein - 26.5 @ 2.28 g/t Au, 10m @ 11.72 g/t Au
- Oso Hormiguero vein - **29m @ 8.26 g/t Au**, 11m @ 9.08 g/t Au
- Falla vein - 8m @ 7.28 g/t Au

# Bramaderos: Our Two Areas of Focus

## **Brama-Alba: 1.6km long mineralised porphyry system**

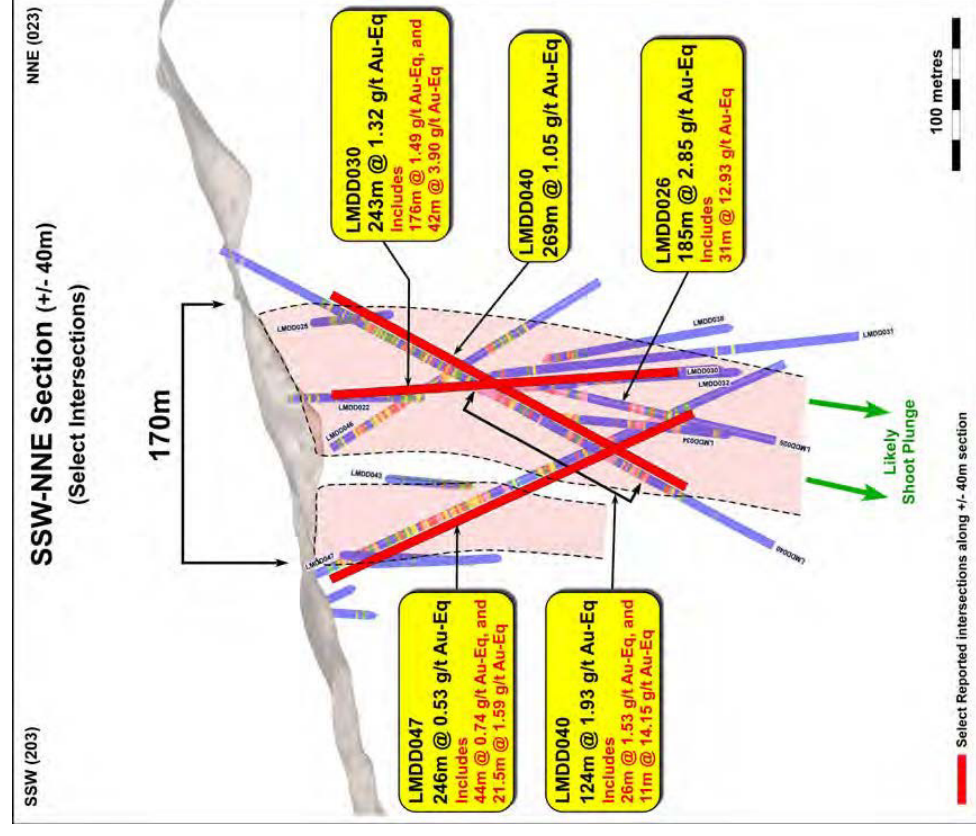

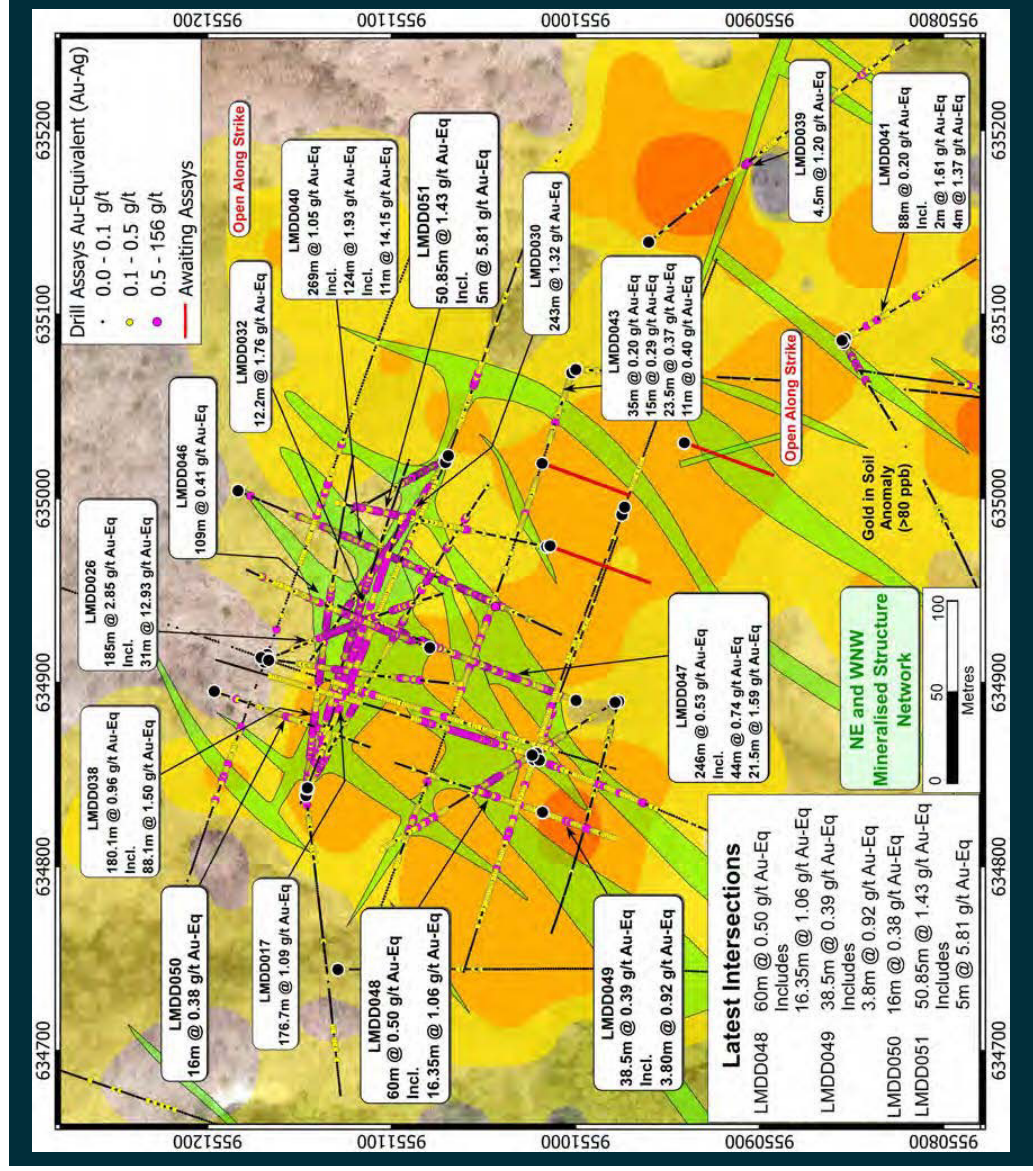

- Outcropping gold-copper-silver
- MRE undertaken by Tier 1 consultants CSA
- Attractive mining metrics
  - ✓ Very low strip ratio
  - ✓ Higher grade domains close to surface
- Significant upside to grow the porphyry resource and define higher grades

## **Limon: 1.7km x 1.0km epithermal gold-silver system**

- High grade intersections including 185m @ 2.85g/t AuEq
- Potential for a deeper large gold-copper-silver porphyry

# Limon: A High-Grade Discovery

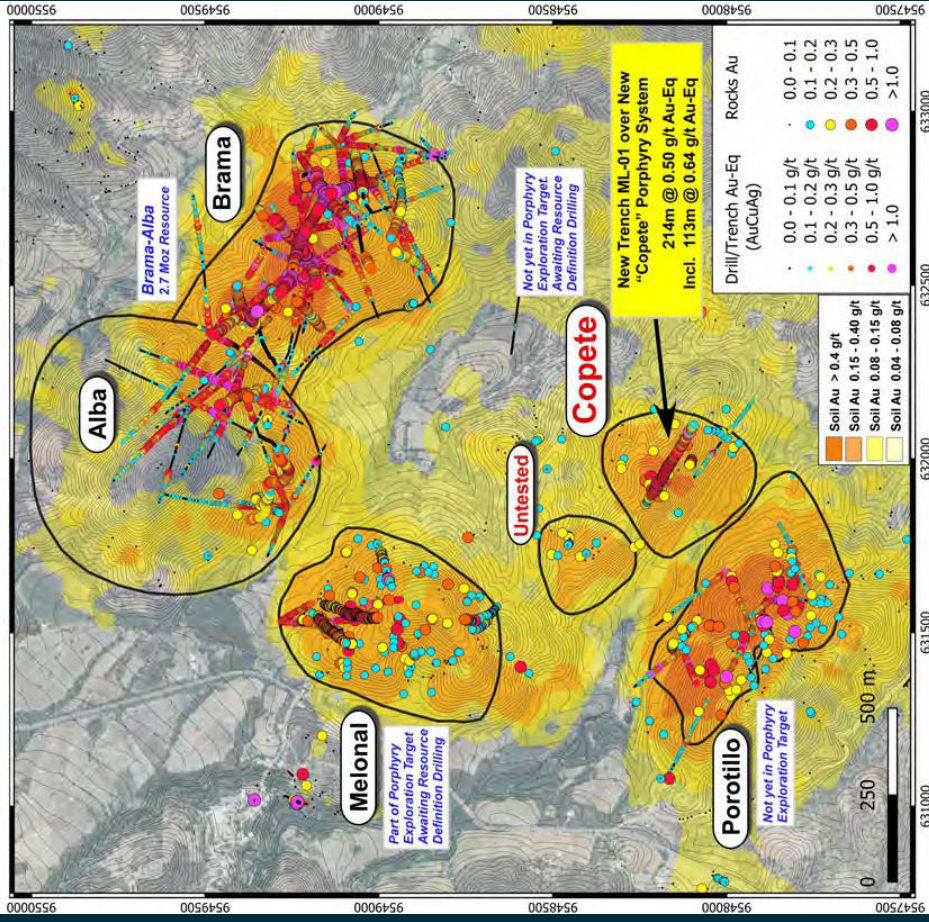

1: ~17k m's of drilling to-date (12k m's in the Limon epithermal)

# Bramaderos: Unlocking Regional-Scale

## Bramaderos Project Southern Porphyry Cluster

High-tonnage, near-surface Mineral Resource at Brama-Alba with depth extensions and nearby targets ready for drilling

- The Bramaderos cluster of gold-copper mineralised bodies at surface now covers an area of 2km x 1.8km
- Potential for a very large, multi-decade, low-cost open pit operation
- Recent surface trench results from new Copete gold-copper porphyry discovery (outside Exploration Target)<sup>1</sup>:
  - 113m @0.64/gt AuEq within 214m @0.50g/t Au-Eq

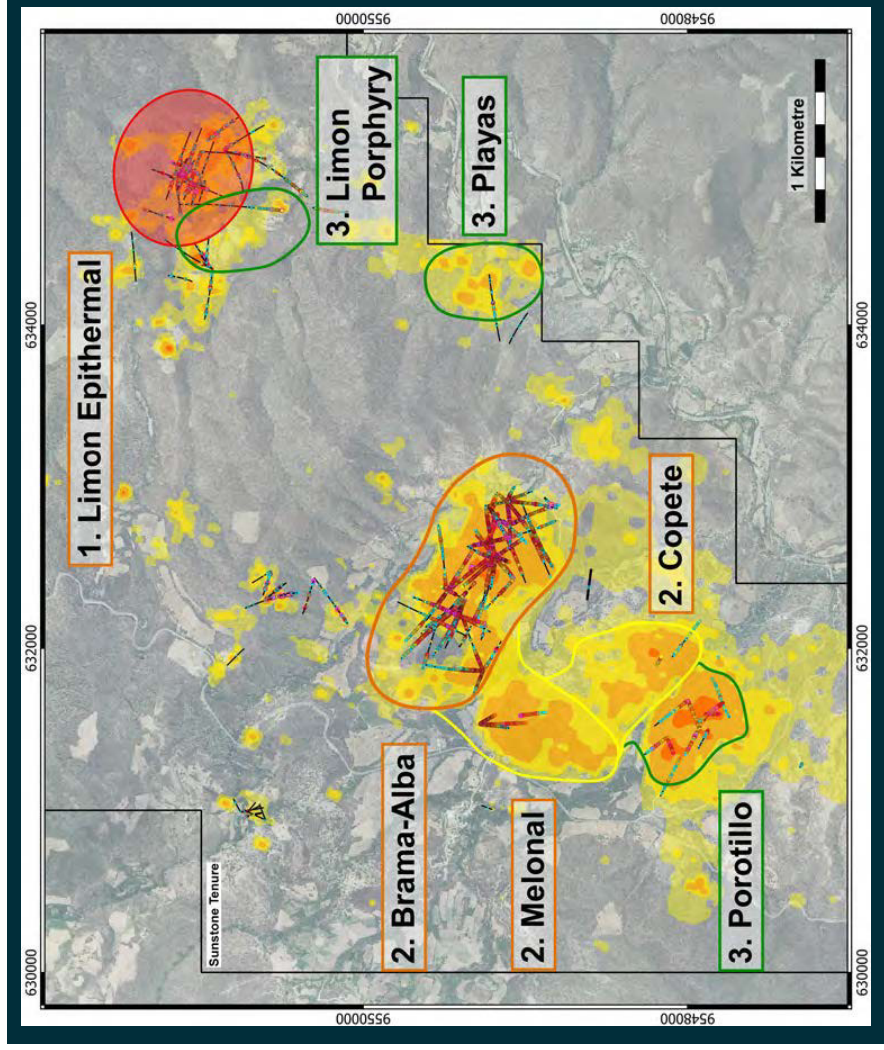

The Project is an ideal location for mining ~900m above seal level, has access to excellent infrastructure (highway, power, water) and a very supportive community

<sup>1</sup> See ASX announcement 12 November 2024

# Bramaderos: Development Strategy

**Bramaderos is a world-class gold and copper discovery with multiple pathways to establishing a large 10M+oz AuEq mining centre in southern Ecuador**

**Stage 1:**  
**Establish Limon**  
**epithermal as a higher-  
grade gold-silver mine**  
**Lower capital cost  
development**

**Stage 2:**  
**Grow Brama-Alba,  
Melonal and Copete**  
**porphyries from  
surface**  
**Open Pits to feed large-  
tonnage milling operation**

**Limon to provide the  
revenue and balance sheet  
to fund larger gold-copper  
porphyry development**

**Stage 3:**  
**Convert porphyry targets  
at Playas, Porotillo, Limon**  
**Future exploration growth  
opportunity**

# Our Community Focus

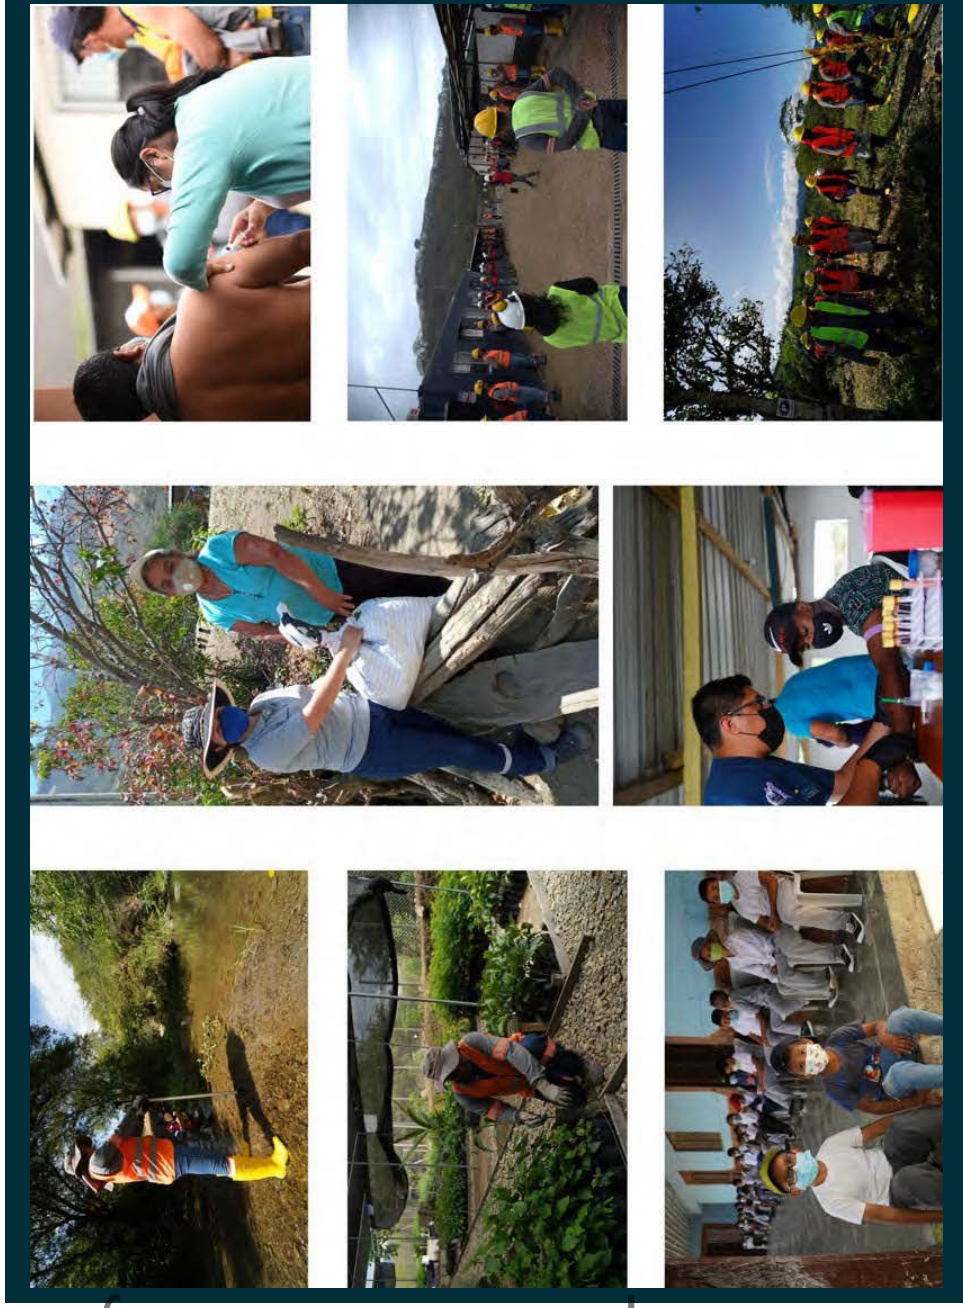

Sunstone appreciates the strong community support that it has at its projects and takes its **environmental, social and governance** issues very seriously.

## Inaugural Sunstone Sustainability Report released 27 November 2023

- Significant **environmental monitoring programs** across all projects
- Involved in various high-impact **community programs** at Bramaderos and El Palmar
- Undertakes considerable **training programs** across a large range of skills for workers and the communities in which we operate
- **Sunstone works with the local communities** to assist where possible, for example, during the pandemic
- Employment and skills development for local communities

Drilling is fully permitted and environmentally compliant at Bramaderos and El Palmar

# Resource and Overview

Sunstone has an advanced portfolio of exploration projects in Ecuador. The portfolio comprises:

## 1. The Bramaderos Gold-Copper Project

Sunstone owns an 87.5% interest, and SolGold Canada, Inc. (formerly Cornerstone Capital Resources) a subsidiary of SolGold, holding 12.5% (loan carried through to start of commercial production). The Bramaderos gold-copper project is located in Loja province, southern Ecuador, and is highly prospective for the discovery of large porphyry gold-copper systems, and high-grade epithermal gold systems. The Bramaderos concession is host to multiple fertile mineralised systems with significant discovery potential.

The Brama-Alba porphyry gold-copper-silver deposit, within the Bramaderos concession contains an initial Mineral Resource estimate of 156Mt at 0.53g/t AuEq for 2.7Moz gold-equivalent\*. In addition to this is the Bramaderos project porphyry gold-copper-silver Exploration Target of between 3.3Moz and 8.6Moz AuEq\* within 255 to 360Mt at a grade between 0.40 and 0.74g/t AuEq\* (see ASX release dated 13 December 2022).

An Exploration Target for the Limon epithermal gold-silver deposit was released on 9 November 2023 (also refer to ASX release dated 5 February 2024) consisting of between approximately 30 and 44 million tonnes at a grade of between 0.9 and 1.2g/t AuEq\*, for between 0.9 and 1.7mill oz AuEq\*. The potential quantity and grade of the Exploration Target is conceptual in nature. There has been insufficient exploration to estimate a Mineral Resource for the target area reported. It is uncertain if further exploration will result in the estimation of a Mineral Resource.

The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement for the Mineral Resource estimate and Exploration Target referred to above and, that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed. The company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

\* The gold equivalent calculation formula for porphyry gold-copper-silver mineralisation is  $AuEq(g/t) = (Au\ grade\ x\ Au\ price\ x\ Au\ recov / 31.1035) + (Ag\ grade\ x\ Ag\ price\ x\ Ag\ recov / 31.1035) + (Cu\ grade\ x\ Cu\ price\ x\ Cu\ recov / 100) / (Au\ price\ x\ Au\ recov / 31.1035)$ . The prices used were US\$1,800/oz gold and US\$9,500/t copper and US\$22/oz silver. Recoveries are estimated at 89% for gold, 85% for copper, and 60% for silver based on metallurgical studies (see ASX release dated 13 December 2022)

\* The gold equivalent calculation formula for epithermal gold-silver mineralisation is  $AuEq(g/t) = Au(ppm) + (Ag\ (ppm)/82)$ . The prices used were US\$1,800/oz gold and US\$22/oz silver. Recoveries are estimated at over 90% for gold and 90% for silver from metallurgical studies (see ASX release dated 9 November 2022).

In Sunstone's opinion all the elements included in the metal equivalents calculation have reasonable potential to be recovered and sold.

# Resource and Overview

Sunstone has an advanced portfolio of exploration projects in Ecuador. The portfolio comprises:

## 2. The El Palmar Gold-Copper Project

Sunstone holds 74.5% of the highly prospective 800ha El Palmar gold-copper porphyry project in Ecuador. Sunstone can acquire 100% through a Staged Acquisition Agreement to acquire the nearby Verde Chico Project has also been signed. The El Palmar and Verde Chico gold-copper projects are located in Imbabura province, northern Ecuador, within the same geological belt that includes the giant Alpala, Tandayama-America and Llurimagua porphyry copper-gold and copper-molybdenum deposits.

The El Palmar porphyry gold-copper-silver deposit within the El Palmar concession contains an initial Mineral Resource estimate of 64Mt at 0.60g/t AuEq for 1.2Moz AuEq\*. In addition to this is the El Palmar Exploration Target of between 15Moz and 45Moz AuEq\* within 1.0Bt to 1.2Bt at a grade between 0.3g/t to 0.7g/t gold and 0.1% to 0.3% copper for contained metal of between 10Moz and 27Moz gold and 1.0 to 3.7Mt copper (see ASX release dated 22 October 2024). The potential quantity and grade of the Exploration Target is conceptual in nature. There has been insufficient exploration to estimate a Mineral Resource for the target area reported. It is uncertain if further exploration will result in the estimation of a Mineral Resource.

\* The gold equivalent calculation formula is  $AuEq (g/t) = ((Au \text{ grade} \times Au \text{ price} / 31.1035) + (Ag \text{ grade} \times Ag \text{ price} \times Cu \text{ price} \times Cu \text{ recov} / 100)) / (Au \text{ price} \times Au \text{ recov} / 31.1035)$ . The prices applied were US\$1,800/oz gold, US\$4.50/lb copper and US\$22/oz silver. Recoveries are estimated at 90% for gold, 78% for copper (excluded for oxide material), and 60% for silver based on metallurgical studies. In Sunstone's opinion all the elements included in the metal equivalents calculation have reasonable potential to be recovered and sold.

# Competent Person Statement

## Competent Persons Statement - Bramaderos

The information in this report that relates to Mineral Resources is based on information compiled by Mr Aaron Meakin. Mr Aaron Meakin is a full-time employee of CSA Global Pty Ltd and is a Member and Chartered Professional of the Australasian Institute of Mining and Metallurgy. Mr Aaron Meakin has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mr Aaron Meakin consents to the disclosure of the information in this report in the form and context in which it appears.

## Competent Persons Statement – El Palmar

The information in this report that relates to Mineral Resources is based on information compiled by Mr Rob Spiers. Mr Rob Spiers is a full-time employee of Spiers Geological Consultants (SGC) and is a Member of the Australasian Institute of Geoscientists (AIG). Mr Rob Spiers has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). Mr Rob Spiers consents to the disclosure of the information in this report in the form and context in which it appears.

## Exploration Target Competent Person – Bramaderos and El Palmar

The information in this report that relates to exploration results and exploration targets and results is based upon information reviewed by Dr. Bruce Rohrlach who is a member of the Australasian Institute of Mining and Metallurgy. Dr. Rohrlach is a full-time employee of Sunstone Metals Ltd and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Dr. Rohrlach consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

# Information on Exploration Target

## **Bramaderos**

The Bramaderos porphyry Exploration Target within the Bramaderos concession is estimated from 3 areas – the extensions to the Brama-Alba system that are not captured in the Mineral Resource estimate (MRE), and mineralisation drilled at the targets of Melonal and Limon porphyry mineralisation.

The Exploration Target does not include known porphyry mineralisation at Sandia, Porotillo, Playas, Copete or Yeso. It was decided to not include these areas because Sunstone has not yet completed any or sufficient drilling in these areas. Some historical drilling has been completed at Porotillo. Further work in these areas will be undertaken and they are expected to contribute to an expanded Exploration Target in future.

Several areas of mineralisation have been identified outside of the area of the MRE. The MRE captured all material within a 'Mineralisation Wireframe', and within an economically modelled pit. Some drill holes that intersected mineralisation are outside the mineralisation wireframe, and either within or outside the pit. Inadequate drilling exists in these areas to show continuity. Furthermore, the effect of the reasonable prospects of economic extraction was to exclude 14% of material. This material has been captured in the Exploration Target.

Six domains were identified as having clear potential for additional mineralisation and these were reviewed either on a depth slice basis, or a block basis. Volumes were calculated and grade was assigned based on nearby data and on comparison with the overall Brama-Alba grade.

The Melonal target is a continuation of the Brama-Alba system. It is geologically grouped with Brama-Alba. Recent drilling by Sunstone, and historical drilling from 2007, has confirmed that the Melonal target is mineralised, and that mineralisation is hosted in rocks the same as those drilled at the nearby Brama-Alba deposit. The mineralised rocks are coincident with a discrete sub-vertical magnetic anomaly measuring up to 400m in diameter, and with a vertical extent of over 1,000m. The Exploration Target for Melonal was considered to a depth of 500m. The Melonal target straddles the approved Bramaderos-01 and Bramaderos-02 concessions.

Sunstone has drilled 8 effective diamond holes at the Limon porphyry target. Mineralisation has been intersected in a number of holes. A trench (LM\_TR\_01) was completed at Limon prior to drilling in an area of outcropping stockwork veining and minor secondary copper mineralisation. It returned 97m at 0.73g/t gold and 0.23% copper. A recent hole drilled under the trench has intersected similar stockwork veined intrusive and contains chalcopyrite.

This area around Trench TR\_LM\_01 has been included in the porphyry Exploration Target where more drilling is required to allow inclusion in a Mineral Resource estimate.

This target area will be further explored with drilling programs to be executed over the next two years, subject to the Company's funding ability.

## **Limon epithermal**

The Limon epithermal Exploration Target was estimated on target prospects where there was a combination of diamond drilling (by Sunstone), geological mapping, trenching, geochemistry (soils) and to a lesser extent geophysical data (magnetics) which could support the geological and mineralisation concept model.

The Limon alteration area has been covered with soil sampling on a 50m x 50m grid. This survey is an important exploration method which identified several gold-in soil anomalies that are primary targets for drilling. The soil geochemical data is further interpreted using related element associations typical of epithermal systems, such as

areas of somewhat coincident gold, silver, zinc, lead, copper, tellurium and arsenic. Target areas have also been strengthened using alteration mineralogy from a hand-held Terraspec instrument. These data assist in mapping the alteration zones most likely to be associated with epithermal mineralisation.

Drilling at Limon has also intersected a high sulphidation system in holes LMDD004 and 006, which included intersections of 13.3m at 0.43% copper and 0.11g/t gold, within 59.6m at 0.16% copper.

Standard geological mapping and rock chip sampling has also been undertaken across the Limon target area.

The volume ranges for the initial Exploration Target in the Central Shoot were estimated using cross sections and 3-D modelling in Leapfrog software, based upon an analysis of drilling, mineralised rock types, grade distribution, potential for extrapolation of mineralisation continuity and interpreted geological risk.

The volume ranges for the other components were estimated from geological interpretation and guided by extent of surface geochemical anomalism, supplemented by preliminary drilling. A conservative approach was taken to the potential distribution of gold and silver bearing veins.

This target area will be further explored with drilling programs to be executed over the next two years, subject to the Company's funding ability.

## **El Palmar**

The Exploration Target within the El Palmar concession is estimated from within the T1, T2 and T3 areas.

The Exploration Target does not include interpreted or known porphyry mineralisation at the T4 and T5 target areas. It was decided to not include these areas because Sunstone has not yet completed any drilling at T4 and has conducted only minor drilling at T5. Further work in these areas will be undertaken and they are expected to contribute to an expanded Exploration Target in future.

The components of the exploration target are based on a combination of diamond drilling conducted by Codeco (during 2012) and by Sunstone (during 2022 and 2023), ground magnetics, multi-element soil sampling, multi-element rock chip and channel sampling, multi-element trench sampling and deep magnetic inversion anomalies modelled from ground magnetic data.

Wireframes of the areas within the Exploration Target areas were created in Leapfrog software using data interpreted from the Mineral Resource block model, iso-surface contours of modelled magnetic intensities, and grade ranges in available diamond drill holes. The volumes were multiplied by a specific gravity of 2.72g/cc (the average density of the T1 resource) to determine the tonnage range of the target. Grade ranges were determined with reference to drill intersection and surface rock chip assays.

The next step in testing these targets is primarily diamond drill testing. The targets have been adequately defined, but drill programs still require detailed planning regarding the number of drill holes, their azimuths, dips, and final depths. Drilling of these targets will be undertaken over the next two years, subject to the company's funding availability.

## Update on court application – cleansing notices

Further to the request for voluntary suspension by Sunstone Metals Ltd (ASX: STM) on 15 May 2025 in regard to inadvertent non-lodgement of cleansing notices under the *Corporations Act 2001* (Cth), Sunstone advises that an originating application with the Federal Court of Australia has been filed, seeking orders under section 1322 of the *Corporations Act 2001* (Cth) including declarations as to the validity of share trades in respect of the following:

- shares issued under a placement on 22 and 29 April 2022 and 2 April 2025;
- shares issued on 13 May 2022 under a share purchase plan;
- shares issued to directors under a placement on 13 February 2024, 9 July 2024 and 31 October 2024; and
- shares issued on the exercise of unlisted performance rights under STM's employee incentive scheme on 28 September 2018, 8 April 2019, 18 July 2019, 10 September 2019, 1 November 2021, 10 November 2021, 1 December 2021, 13 July 2022, 4 November 2022 and 18 November 2022.

The application is presently listed for hearing at 10.30am (AEST) on Tuesday, 20 May 2025. Sunstone will announce the outcome of its application following the hearing.

If the requested orders are approved by the Court, the Company will lodge a cleansing prospectus and will request that ASX immediately lift the voluntary suspension.

If any affected shareholders have questions in relation to the application, they should contact the Company.

Mr Patrick Duffy, Managing Director of Sunstone Metals Ltd., has authorised this announcement to be lodged with the ASX.
