Subject: Publishing Deal

Hello Kelly!

Hope you're going well, just sending you an update on my last few months and an offer for a publishing deal from Warner Chappell.

The time I spent in London working with writers was incredible and a really exciting start/introduction to what's to come. The sessions were organised by Amanda Ghost and her team at UNIGRAM who are incredibly well connected and excited about my beginnings in the music industry.

I have been in touch with Amanda Ghost since the trip and she wants to offer the publishing deal alongside Warner Chappell to be able to keep supporting me with sessions etc.

I start rehearsing for "The Deb Movie" in September and would love to continue writing and developing my sound before then, and down the line, be able to write and work overseas.

Obviously way way way more details to come but wanted to give you a heads up before you are sent offer details (I believe sometime soon)

Really excited to talk through all of this with you.

Best
Charlotte x
