

Dear Justice Wheelahan,

NTD17/2024            LESLEY TURNER V JACINTA  
                                 NAMPIJINPA PRICE

I sincerely apologise for any disruption caused during the court proceedings on 21 October 2025. It was never my intention to make Senator Price feel unsafe or threatened by my presence, and I deeply regret if my attendance caused her any distress.

I attended the proceedings in person because online broadcasts often lack clear audio, making it difficult to follow the case accurately. Even in court I moved to the front as I was still having trouble hearing. This matter is of great importance to me, as it involves critical facts that reflect on the character of those involved, including Dr. Gavin Morris, who was under consideration to collaborate with our organisation. I have worked with Dr. Morris on various youth crime initiatives over the past two years. Additionally, the case holds personal significance due to my work addressing youth crime, child sexual abuse, and empowering children to drive change in their lives. As a survivor of child sexual abuse, alongside my two sisters, brother, and cousin, I lead Guardians of Earth, an organisation dedicated to these causes (see [HOME | GUARDIANS OF EARTH](#)).

I wish to clarify Senator Price's claim that the Australian Federal Police (AFP) instructed me not to approach her. This is inaccurate. On 11 September 2024, two AFP officers visited my home. The interaction proceeded as follows:

**AFP:** "Are you Keith Gregory?"

**KG:** "Yes."

After brief small talk, they stated:

**AFP:** "This conversation is being recorded on our body cameras. Have you been sending email requests to Senator Price regarding child sexual abuse?"

**KG:** "Yes, we have been trying to secure a meeting with her for some time"

**AFP:** "We are here to advise you that Senator Price requests you no longer send emails to her."

I was shocked by this visit, as Senator Price had never responded to my emails or requested that I cease contact. She could have easily blocked my messages. My emails were never threatening; they sought only to engage her on issues of child sexual abuse. The AFP's visit felt disproportionate, reminiscent of authoritarian tactics used to silence individuals. I have not contacted or approached Senator Price since 11 September 2024, until my attendance at the court on 21 October 2025.

To avoid further disruption to the court or distress to Senator Price, I did not attend today's proceedings and attempted to view them online, only to find they were not broadcast. I remain committed to respecting the court's processes and Senator Price's wellbeing while seeking clarity on this important case.

Thank you for your understanding.

Sincerely,

Keith Gregory
