Gerry Can HeadRush.

Sorry it took me a little while to send this off, I had a small life/work implosion and my scope of reference became small and intense for a week.

I'm not sure what would be helpful so I just gave you a smattering of bits and pieces in and around the subject of.. myself.

I can absolutely write a mock up letter.

Just let me know and I will compile one and you can edit it with your Gently Flattering Brush Strokes (..not my best but still in form)

So here is the link to my CV info:

Here is a few other reference letters from a while back if they help any:

I'm in the midst of re-editing my showreel and will forward it on to you when its done.

Just let me know what else would be useful to have or know and I will gather it.

Thanks again for this Generous De'Gush.

You're very kind and I appreciate it.

The EDGE.
