### Job Description

#### Duties

The Court has successfully implemented a number of important reforms through the National Court Framework (NCF). The NCF is a fundamental reform of the Court and the way it operates. The key purpose of the NCF is to reinvigorate the Court's approach to case management by further modernising the Court's operations so that the Court is better placed to meet the demands of litigants and can operate as a truly national and international Court. The NCF reforms have focused on matters relevant to the work undertaken by the judges of the Court, including the allocation of case work to judges on a national basis, the organisation and management of the Court's work nationally through the introduction of nine National Practice Areas (NPA's), the introduction of a national duty system and the reform of the Court's practice and procedure through the introduction of a suite of new practice notes, including the Central Practice Note. The Court is now extending the NCF (and its core principles) to other broader and related areas of judicial and registrar work across both the FCA and the Federal Circuit Court (FCC) (general federal law), in its aim to ensure an efficient, effective and nationally consistent approach to the allocation and management of that work and to create opportunities for the advancement and career development of Judicial Registrars.

The Principal Judicial Registrar & National Operations Registrar (PJR) and the National Operations Team are responsible for ensuring the proper implementation of the NCF and its ongoing functions. More particularly, the National Operations Team has a number of key responsibilities as part of the implementation and operations of the NCF, including:

- assisting with the design and coherent operation of the NCF (across first instance and appellate work);
- the national allocation, management and workload analysis of all judicial and registrar general federal law work; and
- judicial support, including mediation and high level case management support.

The National Registrar (NR) position is a key national role within the National Operations Team. The position is multi-faceted and plays a critical role within the reformed structure of the Court and supports the PJR in a number of ways, including:

- the allocation and reallocation of first instance and appellate work to judges on a national basis across all NPAs. It involves providing high level advice and guidance on the application of the NCF Allocation Protocols. Overall, it involves supporting all judges nationally, their related staff and registries, to ensure consistent and appropriate allocations of judge-related matters. In addition, the NR supports the allocation and reallocation of general federal law work to registrars;
- the in-depth statistical analysis and assessment of federal law work (across first instance and appellate matters) and providing recommendations regarding the management of judge-related and registrar-related workload;
- legal and case management support for judges and Judicial Registrars, including undertaking legal research, legal support with complex and large matters and supporting the development of policy and practice for the Court; and
- the development of practices and procedures to support the implementation and ongoing operation of the NCF.

#### Eligibility

**Formal Qualifications:**

This position may require the occupant to perform statutory legal functions, as necessary. Therefore, legal qualifications and admission as a practitioner of the High Court and/or the Supreme Court of a State or Territory of Australia is essential.
